Getting Ready for Fall

We wish to announce to the trade that we are daily receiving all that is new in the coming season's styles in Dress Goods and the Dry Goods line generally. In fact we will be better prepared to attend to your wants in the line of Dry Goods, Clothing, Shoes, Etc. this season than ever before.

We Invite You to Our Store

We ask that you take a few minutes off while in town and look through our immense stock. You will be better prepared to trade then as you will have had a chance to inspect one of the largest Dry Goods stocks in the new state of Oklahoma

Remember the Big Cash Store will make your money go farther

SCOTT-HOARD CO.

UNITED STATES LANDS MARINES ON CUBAN SHORE

Havana, September 14.—One hundred and twenty sailors from the United States protected cruiser Denver camped Wednesday night in front of old La Fuerza Castle, facing the Plaza de Armas, the little park in front of the Presidential palace, which is the seat of the Cuban government. The American flag was planted just inside the low stone coping separating the castle grounds from O'Reilly street, which thoroughfare passes between the camp and the Plaza de Armas. The American soldiers were armed with regulation rifles, with the exception of a few who carried revolvers or carbines. Two field howitzers and two rapid-fire guns were sent ashore with the steamers and pointed across the pretty little park, a significant warning to any one approaching the executive headquarters of the Cuban government with hostile intent.

The Denver, which originally anchored further up the bar, dropped down this evening to a position abreast of the foot of O'Reilly street and in front of the offices of the Captain of the port, so as to be conveniently near the detachment sent ashore and close at hand in case of need.

The whole business was done so quietly and quickly that it caused the greatest surprise. The reason for the sudden landing of the American sailors

was a conference between President Palma, Charge d'Affairs Sleeper and Commander Colwell.

Tin-top and Mistletoe.

The marshal's office received the analysis of two beverages, Tin-top and Mistletoe. These beverages were sent to Prof. DeBarr of the Oklahoma University at Norman a few days ago. The analysis of these two beverages show Tin-top to contain 1.66 per cent of alcohol, and 3.847 per cent of malt. Mistletoe is shown to contain 1.962 per cent of alcohol and 6.84 per cent malt. Therefore, Marshal Porter says all dealers will be allowed to handle these beverages in the future as they are shown by government analysis to contain less than two per cent of alcohol. These are the only two beverages that have been analyzed by the government which have shown to contain less than two per cent as allowed by law.

COTTON WAREHOUSE WILL BE ERECTED AT ONCE

On Thursday the committee of the County Farmers' Union and the commercial club of Ada completed arrangements whereby a warehouse will be built. A deed to lots 2, 3 and 4, in block 59, situated just north of the compress, will be furnished the union and a building will at once be erected for the storage of cotton. In addition, the union will lease some adjacent lots and operate a cotton yard.

We are informed that the contract has been let for the erection of the building and that the work will be rushed to an early completion.

New Cure for Mosquitoes.

No one need suffer from mosquitoes. Just take a small piece of watermelon and set it near the bed. The insects will gather about it like flies around a sugar bowl and you will enjoy a good night's rest.

WANTED—City salesman of neat appearance to call on every merchant and professional man in Ada. Good proposition to offer the right party. Address, with reference, Manager, Box 71, Ada, I. T.

The carpet bagger must go when the people have an opportunity to express their wishes.

NEW MEXICO DEMOCRATS INDORSE JOINT STATEHOOD

Santa Fe, N. M., Sept. 14.—After being in session since early Wednesday morning until almost noon Thursday, the Democratic territorial convention nominated O. W. Larroza, of Los Vegas, as its candidate for delegate to congress. It is said the nomination was tendered to some half dozen prominent Democrats of this territory, who declined to accept.

Resolutions containing an indorsement of William Jennings Bryan for the presidency in 1908 were enthusiastically cheered. Joint statehood for New Mexico and Arizona was indorsed.

In Commissioner's Court.

The case of U. S. vs Bill Knox charged with larceny and forgery, was heard before Judge Winn Thursday. Knox was held in \$500 bonds on each charge, which was furnished.

BUSINESS MEN CO-OPERATE FOR BENEFIT OF ALL

Tuesday night there was organized at the U. S. court house a local association of the Retail Merchants Association of Oklahoma, by Joe S. Jennings, state organizer.

Some fifteen local merchants were present and the following officers were elected: Chas. Little, president; W. B. Jones Vice President, and R. S. Tulin, secretary and treasurer.

A committee on membership was appointed, as was also a committee on by-laws and constitution.

The committee on membership began active work this morning and with the exception of three or four, every merchant in the city joined the association.

The object of the association is: To

more closely unite the merchants of the state; to co-operate for the benefit of all; to abate trade abuses; to expose fraud adulterations; to watch and influence legislation toward the better protection of capital; to assist its members in collecting delinquent accounts; protection from the men who will not pay their debts and to observe the Sabbath and all legal holidays.

Burglary at Roff.

Roff, I. T., Sept. 14.—Thieves entered the drug store of W. C. Rea here Wednesday night and carried off two six-shooters and a number of rings. The loss is estimated at about \$50. Entrance was gained by knocking out a glass in the back door.

INDIANS WANT MONEY FOR LAND GIVEN TO FREEDMEN

Tishomingo, I. T., Sept. 14.—The Chickasaw Legislature is in session considering matters of importance to the welfare of the tribe before the tribal Government dissolves. The Legislature will be in session about thirty days, and it is said that several memorials will be passed the nature of which cannot be learned.

Said Senator Young: "There are some matters to be settled that are of vast importance to my people. We are greatly displeased with the division of our lands among the new ones of the freedmen, and if Congress persists in taking our estates for that purpose we want our pay for the lands. The judgment rendered by the Court of Claims in our favor for the lands that have been allotted to the freedman has not been paid, and we would like to have our money. Members of the tribe need all the money that is coming to them to use in improving their allot-

ments. The question of public roads in this country is one of importance to the whites as well as to the Indians. We are as anxious as other people that good roads be built in our country, but we are bitterly opposed to having all the expenses saddled on the tribal government. The matter of placing roads on section lines is no easy matter. The Indians who must give up part of their lands for this purpose will want pay and the entire expense connected with the building of roads will be enormous, and we people take it as being rank injustice that this money be taken from our tribal funds."

The Indians had rather have their new born be given the surplus lands than to have these lands sold and the money be divided out per capita. The Governor did not touch upon these questions in his annual message, but he is thoroughly acquainted with their importance and is in accord with the Legislature in their settlement.

OVERDRAFTS

It is becoming well known by business men that overdrafts, whether large or small, are not approved by the comptroller of the currency. The large central banks allow overdrafts only in a very small way, and this, it matters not how small, is not approved by the powers that be. This unbusinesslike habit of overdrafts grew out of advancing on moving products, such as cotton, grain and fat stock on the move. The overdraft system is wrong and the man whose account is always overdrawn is the man who spends more money than he makes and will finally have no bank account.

CARLTON WEAVER

MR. CARNEGIE, at the opening of the Roosevelt campaign in 1904, in a burst of partisan philanthropy, said he would give one million dollars to the Republican campaign fund to elect Mr. Roosevelt. Did his liberal donation have the effect of enervating the judicial arm of the government? It looks so, for there has been no attempt to prosecute the Steel Trust, and it must be remembered that Mr. Carnegie owns \$300,000,000 of the Steel Trust bonds. As Mr. Roosevelt has discovered that "the question of revising the tariff stands wholly apart from the question of dealing with the so-called trusts—that is, with the control of monopolies and with the perversion of great wealth in business, especially in corporate form." Is it possible that President Roosevelt does not know, or for partisan purposes denies that such "so-called trusts" as the Steel Trust, the Sugar Trust and most manufacturing combinations that are complete or partial monopolies, have been created and could not exist without tariff protection against foreign competition? The protective tariff is the mother of those trusts and is still nursing those lusty infants.

Architect Needed Nowadays.
Flubb—Hear about Squigg? He's a successful architect.

Dubb—Architect? Why, he doesn't know the difference between a Greek temple and a dog kennel.
"No; but he can put a six-room apartment where there is only space for a five-room flat."—Columbia Jester.

Too Practical.
Miss Pense—How do you like that new beauty doctor?

Mrs. Ques—He's perfectly horrid! I asked him what I could do to develop my arms and he said I'd better go home and knead my own bread.—Detroit Free Press.

Thrown Out.
"And you say you lost your position by the great earthquake in San Francisco?" inquired the kind lady.

"Yes, mum," replied Frayed Franklyn.

"What was your position?"
"I was asleep in a barn at the time."—Milwaukee Sentinel.

BAD HEALTH.

Worry, Overwork, Hasty Eating, Excessive Use of Liquors, Loss of Sleep, Neglect of Nature's Calls. These Bring on the Deadly Bright's Disease.

Thousands Die of it Every Year.

Kidney disease is the enemy we have most to fear as a result of the feverish restlessness of modern civilization. It is a treacherous enemy, working out its deadly effect under cover of the most trifling symptoms. The first indication of changes in the urine, frequent headaches, digestive troubles, should be the signal for prompt remedial measures. Prickly Ash Bitters is a kidney remedy of the greatest merit; it is soothing, healing and strengthening, quickly relieves the aching or soreness that always appears in advanced stages, checks the progress of the disease and through its excellent cleansing and regulating effect in the stomach, liver and bowels, it brings back the strength and ruddy glow of vigorous health.

Accept no substitute. Insist on having the genuine Prickly Ash Bitters with the large figure 8 in red on the front label.
Sold Everywhere. Price \$1.00 per bottle.

WHERE LAWYER CAME IN.

Worked Up a Shock for the Passenger and Got Damages for It

Uncle Billy Smith had got back home after a trip to see his sister, and sitting on the post office steps, relates the Baltimore American, he said to the men who were asking questions:

"Well, in the car with me was a lawyer. I'd been talkin' with him and feelin' sorry that he hadn't taken to some honest profession, when the cars run off the track. Nobody was hurt, but our trunks in the baggage car was all smashed up. Purty soon a man comes around, and ask us to make out the damages. I wrote down that I had lost two shirts, three pairs of socks, an old suit of clothes and a pair of shoes, and that my damages was ten dollars. The lawyer looks at the paper and said:

"But you hain't added anything for the shock."

"What shock?"

"The shock to your feelin's. Put down \$200 for that."

"But have my feelin's been shocked?"

"Of course they have, and you must get pay for it."

"I put her down as he said, and two days later I got my damages in hard cash. I've all along thought a lawyer was next door to a pirate, and that he'd do most any mean thing, but I've had to change my mind. That feller jest worked up a shock for me and got me \$200 extra, and if my son Sam wants to go into the law business I shan't do any great objectin'."

SHE REFUSED TO OBEY.

Demise of Woman Who Had the Old Marriage Service Revisited.

Mrs. Sarah J. Harper Starr of Bellevue, was buried the other day in the family mausoleum at Zionsdale, Penn., and a most wonderful life was ended, says the Pittsburgh Dispatch.

Mrs. Starr's marriage in Cincinnati on May 22, 1849, is of historical importance in ecclesiastical circles. Miss Harper was 16 years old and had been studying in college with a view to missionary life in foreign lands. Dr. Starr, a young physician, was studying toward the same end and the couple decided to wed.

Miss Harper had ideas of her own on the question of the word "obey" in the ritual of the church, and decided that for her it should be eliminated. She found a friend in Rev. Maxwell Gladis, assistant pastor of Morris chapel, Cincinnati, who promised to omit the word during the ceremony, and she was married, but friends were inconsiderate enough to say the marriage was invalid and at the next meeting of the general conference of the Methodist Episcopal church, held in Cincinnati, the clergyman who had omitted the word was "churched."

Finally the question became general, and later, when decisive action was taken, the sentence "serve and obey" was ordered stricken out of the matrimonial ritual of the discipline of the Methodist church.

ENGLAND RAN LOTTERIES

Source of Public Revenue from Early Times Till the Year 1824.

Lotteries were common in ancient Rome, and during the middle ages lotteries were utilized by the Italian merchants for the disposal of their goods.

Some of the Italian states then adopted the lottery as a means of raising revenue, and the institution of state lotteries afterwards became very common and very popular throughout Europe.

The earliest English state lottery of which there is any record was in 1569, when 40,000 chances were sold at ten shillings each, the drawing taking place in the west door of St. Paul's cathedral. The prizes consisted of articles of plate, and the profits were employed for the repair of certain harbors.

Early in the reign of Queen Anne private lotteries were suppressed, "as public nuisances," but government lotteries were still maintained, and from 1709 to 1824 considerable sums were annually raised in lotteries authorized by act of parliament.

The average yearly profit to the government from 1793 to 1824 was over \$1,700,000. On the ground of injury to public morals, lotteries of all kinds were abolished in England in 1826.

To Save Table Cloths.

A friend with a large family used to be much disturbed over the frequency with which she had to renew her table linen, and especially the tablecloths. At last she hit this plan: When she buys her linen, she sees to it that it is wider than necessary, and also a few inches longer. Then when the edges show the slightest indication of wear, she immediately takes off a strip from one side, four or six inches wide, and a strip from the end. This of course throws the wear upon a different place, and her cloth lasts just as long again. Isn't it well worth trying?

MEN AND WOMEN.
Use Big G for unnatural discharges, inflammation, irritations or ulcerations of mucous membranes. Painless, and not astringent or poisonous.
Sold by Druggists, or sent in plain wrapper, by express, prepaid, for \$1.00, or 3 bottles \$2.75. Circular sent on request.

RAPID FLIGHT OF TIME.

Mule That Aged Five Years Between the Months of February and June.

Mr. Justice Brewer, of the United States supreme court, in lecturing to his law class at the George Washington university, says the American Spectator, told the following story:

"I knew of a case once where two darkies swapped mules. One of them was an old hand at the business, and in making the trade he represented his mule to be seven years old, and told of the many good traits the animal had not. This was in February. About two months later the other darky began to realize that he had been victimized in the bargain and that the beast was fully 12 years old. So he decided to go back and tell the swindler he had lied to him about the animal. However, owing to it being the busy season of farming, he was not able to go until about the middle of June. He finally did go, and told his man what he thought of his rascally misrepresentations about the mule.

"You say," said the other fellow, "dat when you got de mule in February he was seven years old, and now it's June and he's 12 years old?"

"Yes, I do!" was the angry response.

"Well, sah, time sure do fly."

JAMAICANS LACK GINGER.

Seek Employment at Panama, But Are Said to Be Wasteful and Stupid.

Jamaicans are apparently jacks of all trades. Hungry for the big wages of Panama, school teachers, barbers, shoemakers, store clerks have flocked to the isthmus to find employment as masons, carpenters, blacksmiths and painters indifferently, says Everybody's Magazine. They are wasteful; they are stupid; they are possessed with an unutterable hatred of exertion other than conversation, preferably on religious or ethical topics. Here are some more statistics from my friend the foreman of painters: Hospital 54 is a building about 40 feet square, the amount of white lead required for the paint to be applied to it would be, here in the states, about 75 pounds; it was necessary to use 250 pounds of white lead on the job; none of it was wasted; none was carried away; that white lead and all the other wasted materials which were mixed with it are chargeable to the Jamaica negro's inefficiency. Yet the canal must be built with Jamaican labor in the main. Some workmen are being brought from Galicia, in Spain; some have been imported from Martinique; a few, very few, have come down from the United States.

Submerged Roman Cities.

Late explorations of the Italian coast near Pompeii have changed the opinion of antiquarians, says the New York Tribune. The submerged Roman ruins along the coast used to be regarded as foundation walls thrown out for sea baths, but it was made clear that they are the remains of noble mansions, and that they point to the time when the land on which they stood was far above the level of the sea. The shore is, in fact, strewn with the wreck of buried cities. Coast roads have vanished, ancient quarries have been flooded and the breakwaters of the harbors of classical story covered fathoms deep with water. A great submarine sea wall, with concrete piers 17 feet high, still protects the fragments. But neither the fragments nor the great sea wall have been visible in the light of day for 2,000 years.

Bond Election.

[Notice of Special Election.]

Notice is hereby given that a Special Election by the voters of the City of Ada, Indian Territory, who are qualified electors owning real or personal property subject to taxation in the said City of Ada, Indian Territory, has been called by the mayor and city council of Ada, Indian Territory, and will be held at the mayor's office in Ward No. 1, and at John Beard's building on Broadway in Ward No. 2, and at the United States commissioner's office in Ward No. 3, and at the John Barringer building on Townsend avenue between Main and Twelfth street in Ward No. 4, of the City of Ada, Indian Territory, on the 8th day of October, A. D. 1906, between the hours of 8 o'clock a. m. and sunset of same day, as follows:

To vote on the proposition of issuing Forty Thousand Dollars in bonds of said City of Ada, Indian Territory; the terms and conditions of the bond issue is more particularly described and set forth in the resolution of the city council of the City of Ada, Indian Territory, passed on the 3rd day of September, A. D. 1906, and herewith published at length as a part of this notice:

RESOLUTION. Concerning the issuing of bonds of the city of Ada, Indian Territory. Good cause appearing it is deemed advisable by the Mayor and City Council of the city of Ada, Indian Territory, to issue bonds for the following purpose, to-wit:

For the construction of additional waterworks; and, whereas under the provisions of Section 55 of Supplemental Agreement between the Choctaw and Chickasaw Nation and United States (32 Stat. 641); putting in force the "Laws in force in the organized Territories of the United States" (30 Stat. 252) and under the limitations of the General Bond Act approved May

19, 1902, (32 Stat. 200), the Mayor and City Council of said city are required first to submit the question of the issuance of said bonds to the qualified electors of said city who are owners of real estate or personal property, in said city, subject to taxation, to be by them voted upon.

Therefore, be it resolved by the City Council of the City of Ada, Indian Territory, that the Mayor of the said city of Ada, Indian Territory, submit the following proposition to the qualified electors owning real or personal property subject to taxation, in the said city of Ada, Indian Territory, to be by them voted upon, at an election to be held for that purpose, in Ada, Indian Territory, on the 8th day of October, A. D. 1906.

Shall the bonds of the city of Ada, Indian Territory, be issued for the following purpose and upon the following conditions, namely: in the sum of Forty Thousand Dollars, for the purpose of constructing additional waterworks for public and private use, in the said city of Ada, Indian Territory, said bonds hereinbefore named to be issued in the principal sum of Forty Thousand Dollars and in denominations of One Thousand Dollars each, and to be numbered from thirty-one upwards, and to be known as Waterworks Bonds of the City of Ada, Indian Territory. The principal sum of said bonds to be paid in twenty years from the date of their issue in lawful money of the United States, to bear interest in like lawful money of the United States from the date of their issue, interest payable semi-annually at the rate of five per cent per annum; such bonds shall contain all necessary and usual provisions expressing the contract; shall be signed by the Mayor and countersigned by the Treasurer of the city of Ada, Indian Territory, who shall keep a proper record of such bonds; that none of said bonds shall be sold at less than their par value; that the 8th day of October, A. D. 1906, be and the same is, designated and set apart as the day upon which the question of the issuance of the bonds hereinbefore specified shall be voted upon by the qualified electors of said city of Ada, Indian Territory, who are owners of real or personal property subject to taxation in said city of Ada, Indian Territory; that it is further resolved that a notice of the said election be signed by the Mayor and Recorder of the city of Ada, Indian Territory; in their official capacity specifying time and places of holding said election and set forth this resolution; said notice to be published in the Ada Weekly News, a newspaper of general circulation published in said city of Ada, Indian Territory, for thirty days prior to said 8th day of October, A. D. 1906.

And be it further Resolved: That the election be held on said 8th day of October, A. D. 1906, between the hours of eight o'clock a. m. and sunset of the same day, at such place in each ward as shall be designated by the notice of said election published by the said Mayor and Recorder of the said City of Ada, Indian Territory; and said election be conducted by election officers, consisting of judges and clerks appointed by one of the judges of the United States District court in the Indian Territory within and for the Southern district thereof.

And be it further Resolved: That the electors of said City of Ada, Indian Territory, owning either real or personal property subject to taxation in said City of Ada, Indian Territory, shall vote at said election by ballot, upon which shall be printed the following words: "Bond election for additional waterworks, Ada, Indian Territory." For issuing bonds of the City of Ada, Indian Territory, in the sum of Forty Thousand Dollars for the purpose of constructing additional waterworks in said city. (Yes) or (No). If in favor of bond issue scratch the word "No"; if opposed to the bond issue, scratch the word "Yes."

That the election shall be conducted in the usual manner prescribed by law and the votes shall be counted, canvassed and returned as provided by law; that it is further resolved that said city of Ada, Indian Territory, after incurring the indebtedness, by virtue of the issuance of said bonds shall by ordinance, which shall be irrevocable, provide for the collection of an annual tax sufficient to pay the interest on said bonds as the same shall fall due and also to provide a sufficient sinking fund to discharge the principal thereof within twenty years from date of said bonds.

Approved, J. P. Wood, Mayor.

Attest, JESSE WARREN, Recorder.

Passed and approved the 6th day of September, 1906.

I, Jesse Warren, the duly elected and acting Recorder of the city of Ada, Indian Territory, do hereby certify that the above and foregoing resolution was passed and adopted by the City Council of the city of Ada, Indian Territory, at their meeting on the 3rd day of September, A. D., 1906.

JESSE WARREN, Recorder.

In witness whereof, the said Mayor and Recorder of the City of Ada, Indian Territory, hereunto set our hands and official seals this, 5th day of September, A. D. 1906.

J. P. WOOD, Mayor.
JESSE WARREN, Recorder.

Travel Right

When you have occasion to travel, use the same discrimination in buying a ticket that you would in buying anything else. Assure yourself in advance of what you may expect in the way of comfort and convenience en route.

The Missouri, Kansas and Texas Railroad

with through trains (over its own rails) from St. Louis and Kansas City in the north, to San Antonio and Galveston in the south, offers a ready solution to the vexed question—"How to go?"

If there is any information you would like about a prospective trip, write me. I'll gladly give you the information and if possible have my representative call on you and personally assist you in every way. Think of my offer when you next have occasion to travel. Address

W. S. ST. GEORGE, General Passenger & Ticket Agent, Wainwright Bldg., St. Louis.

Tickets are on sale everywhere, via Missouri, Kansas & Texas Railway.

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol relieves indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol for dyspepsia does not only relieve indigestion and dyspepsia, but this famous remedy helps all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Mr. S. S. Ball, of Ravenswood, W. Va., says: "I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."

Kodol Digests What You Eat. Bottles only. Relieves indigestion, sour stomach, belching of gas, etc. Prepared by E. C. DeWitt & Co., Chicago.

M. B. Ryan, wife and children left this morning for their home at Shawnee. Mrs. Ryan and children have been visiting Mr. Ryan here for several weeks. Mr. Ryan will return in a few days and look after the construction of the bridges on the Oklahoma Central railroad.

WANTED—Two good road salesmen of neat appearance and ability to call on merchants, bankers and professional men. No fake. Staple line of merit and daily use. Experienced bookkeeper preferred. If you are a salesman this is your opportunity. Address Manager, Box 71, Ada, I. T. 150 2t

The News is in receipt of a copy of a special edition of the Maud Democrat. The write up of the town and surrounding country is well gotten up, but the appearance of the paper would have been improved had the half-tone cuts been scattered through the paper instead of being bunched on the last two pages. Taken as a whole, the issue will do much to advertise Maud and vicinity. 150-2t

Interest in Revival Grows.

The services at the Christian church continue to grow in interest. Mr. Trimble's subject for Thursday night was "What Will Ye Do With Christ?"

"The situation is the same today," said Mr. Trimble, "as when Pilate asked this great question. Sin is represented by a robber, and is a great despoiler of happiness. It is not necessary to lift the capstone of hell to hear the wails of the damned. You can hear the clanking of chains and the gnashing of teeth in this life. Sin is the enemy of joy and destroys the very possibility of happiness. If, then, Barabas is displeasing to you, consider well the claims of Christ, for one or the other must reign in your heart."

"Will you reject Him as God's Son? Do you question miracles? We expect things to come in the ordinary way; it is miraculous if they come in any other way. My friends, the first tree did not come in the ordinary way. We have the miracle of matter, the miracle of life, the miracle of thought, the miracle of love. Everything in the material universe had its beginning in a miracle. If the doctrine of the empty tomb was believed in Jerusalem, and by the very people who cried with a demoniac voice, 'Let Him be crucified!' it should not be difficult for us."

"What will you do with His right to command? When Peter said, 'Let us build here three tabernacles, one for Moses, one for Elias and one for Christ,' God rebuked Peter, caught away Moses and Elias and said, 'This is my Son; hear ye Him.'"

"What will Jesus do with you? will be the question uppermost in your mind in that great day. If He says, 'Come, ye blessed of my Father,' it will be well with you; but if he says, 'depart, I know you not,' you will turn to the darkest of despair."

"He knocks at the door of your heart tonight and calls, 'Open unto me.' Will you reject Him and knock in vain at the door of heaven, and call in vain, 'Open unto me?'"

Associational Meeting.

The Zion Baptist association convenes tomorrow morning at ten o'clock with the First Baptist church and will continue in session through Monday following. The introductory sermon will be preached at eleven o'clock tomorrow. Everybody is cordially invited to attend the sessions of the association.

Central Committee.

The central committee, representing each township in the Eighty-seventh delegate district, will meet in Ada tomorrow for the purpose of determining the time and method of holding the delegate Democratic primary.

Dropped In to Do Shopping.

Muskogee, I. T., Sept. 14.—A report reached here today to the effect that the Wycliffes, Charles, Tom and John, were recently in Tahlequah visiting with friends. It is said that they remained in that town for several days, and the fact that they were slightly known in that part of the country except by friends, made their visit a safe one. The main purpose of their visit, according to the report, was to lay in a supply of food and winter clothing. After the necessary purchases were made they mounted their horses and rode back to the hills, once more to assume the roll of hunted outlaws.

As Regards the Cotton Crop.

The following letter was received at this office today and will put right those who have been apprehensive of cotton conditions:

Luala, I. T., Sept. 11.—I have Examined Crops for the Past few weeks I was down to South M. C. Alester a few days ago And I Paid Strick Atechine to Cotton Crop I Did Not See Any Cotton that would make 1-2 Bail to the Acker I did Not See Eany thing But Bumble Bee. Cotton And Not much of that Boys you think Crops is Bad up here But Please dont go to M. C. alester. A. B. Brown

Pre-Nuptial Reception.

A number of young lady friends of Miss Anna Carroll, assisted by Mrs. W. S. Thompson, gave a pre-nuptial reception to Miss Carroll at the home of Mrs. Thompson Thursday night.

The handsome rooms were decorated with roses and honeysuckles and presented a beautiful appearance under the rays of the shaded lamps.

Upon the arrival of the lady guests they were assembled around a table and at each plate was a small fortune pie which held a picture of her future husband. Apples with burning candles were next provided, and a contest ensued to determine who would be the first to take unto herself a husband.

Under the rules the candle that burned the longest period would designate the first to be married. This was the candle that sat before the plate of Miss Amanda James Haynes. The first one to burn itself out was that of Miss Taylor, who, according to the rules of the game, will remain a long time in single blessedness. While the candles were being consumed the guests were served with sherbert and cake.

At this time the hostess passed each guest a slip of paper, upon which each one was to write a recipe, which later will be compiled into a cook book and be presented to Miss Carroll.

During the evening each guest presented the bride to be with a fancy garter as an emblem of good luck. Miss Carroll was also the recipient of a handsome cut glass vase from the guests.

As a fitting close to the social event all gathered around Miss Carroll and sang "Good Night, Little Girl, Good Night."

The guests of Mrs. Thompson voted her an excellent hostess and vouch one of the most pleasant evenings in the history of Ada society.

A Narrow Escape.

Friday morning, while Crockett Dags was driving in the low lands along Sandy, a large driftwood limb fell from a tree, striking him across the neck and back. He was rendered unconscious for a time, but rallied, and was brought to Ada, where he received attention.

During the high water considerable driftwood was carried through the bottoms, much of it lodging in trees, which, upon the slightest movement, fall to the ground, hence the accident.

While it is thought Mr. Dags is not seriously injured, he is suffering considerably from the shock.

"Portland Cement."

On the island of Portland, in the south of England, there are certain quarries of limestone, which have been worked for many years, in former times producing building stone. In 1824 an Englishman named Joseph Asplin, of Leeds, patented a process for mixing and burning lime and clay. The product looked so much like the Portland limestone that he called it "Portland cement," from which commonly known name given to nearly all kinds of hydraulic cement was derived.

What Made It Valuable.

An excited individual ran up to a porter at a railway station and asked: "Have you seen a parcel I left on this seat?" The porter replied that he had not. "Oh, what shall I do?" exclaimed the excited passenger; "it contains three poems I have written." "Can't you write them again?" asked the unsympathetic porter. "Yes, I can do that, but," hesitatingly, "there were two sandwiches in the parcel as well."—Christian World.

Cigarette Popular in the East.

Says a writer in the Pekin and Tientsin Times: "The cigarette has caught the popular favor in the east and far east, being a smoke seemingly peculiarly adaptable to Asiatics. The long-stemmed pipe is giving way everywhere to the cigarette. All classes of Chinese take to it, even the rickasha coolies, some brands of the cigarette being so cheap that the beggars in Peking are seen often indulging in a quiet smoke."

Men Carry Great Weights.

No draft animal is asked to carry so great a load in proportion to its own weight and size, as some men saddle themselves with. Turkish porters in Constantinople often carry more than their own weight, and the Indians and Eskimo who acted as pack carriers in Alaska, when the gold field rushes made the demand for transportation imperative, used to do the same thing, at times.

Product of the Times.

The well bred man of pleasure is gradually dying out and giving place to the tearing, rushing, money grabbing, excitement hunting, slangy, mannerless, selfish devotee of horseflesh and chorus girls we meet so often in the drawing-rooms of duchesses and countesses to-day.—M. A. P.

Pet Snake Pines for Mate.

Veterans at the Soldiers' Home here have two pet pine snakes. One of the snakes disappeared a week ago, but was so lonesome for its mate that it came back and was found trying to get back into the reptile cage.—Vineyard Correspondence, Philadelphia Bulletin.

First Aid to Injured.

If a wound be deep, and excessive bleeding follow the injury, improvise a tourniquet by tying a strip of strong linen above the wound. Pass a pencil under this and give it a twist, pressing the bandage deeply into the flesh, and checking the flow of blood in the arteries and veins. This done, send for the doctor.

Wealth in Old Constantinople.

The wealth of Constantinople before the year 1000 was such as to move George Finley, its historian, to say that "The Pres Basilios had riches to rival the wealth of Croesus, and armed a household of 3,000 slaves to place the imperial crown upon Nicephorus II."

Racehorse Is Fastest Creature.

There are good authorities on animals who claim that the racehorse is the fastest creature that moves on four legs or two. They adduce evidence tending to show that the best thoroughbreds can beat any deer or antelope, any wolf, hare, fox, dog, or running bird.

Germans Buy Meat in France.

In Alsace and the German part of Lorraine many families send their children over the French frontier to buy meat. They can get it for three or four cents a pound less than they are charged in Germany, and there is no duty on small quantities.

Honesty Before Everything.

"Be honest, work hard, and save," said John D. Rockefeller to his Cleveland Sunday-school class. "Honesty is the basis of all character, and there can be no real success without it."

Good in Duty Well Done.

All the evils which come in the accomplishment of a duty vanish little by little with the consciousness of having done what was to be done.—Duchess d'Abantes.

Strict Stage Censorship.

In Bavaria there is a law which prohibits "kisses, passionate embraces, pressing her to his breast," and suchlike amorous actions on the stage.

Uncle Allen.

"Many a worthy young man," said Uncle Allen Sparks, "thinks he has a call to preach, when all he needs is a dose of physic."

Helping Out Others.

Atlas shifted wearily to the other foot. "If I can only continue to hold up the world until a few trust magnates are born," he said, "they will help a lot."

Stumbling Block of Artist.

The simplicity of the artist is always the stumbling block of the artist with the world.—Ouida (Louise de la Ramee).

Democracy of the Bath.

The democracy of the bath is a good institution. One of the most civilizing influences in the world must be the line drawn between the men who do and those who do not keep clean. Education, money, pedigree, all have been rejected in the quest for the true principle of social segregation. But who can find a valid objection to the barrier made by a porcelain-lined moat of good clean water?—N. Y. Globe.

For the Bath Tubs.

There is no more danger of slipping in the bathtub if one supplies the new corrugated rubber mat that lies in the bottom. This is almost essential for the comfort of old people, and a precaution worthy of use by the obese. Besides the mat there are pieces of rubber fastened by clips to the sides of the tub, to prevent slipping here. Handles are sometimes substituted for this arrangement.

Growth of St. Lawrence Valley.

The St. Lawrence valley has passed the Hudson and Mississippi river valleys in growth. In 1860 the opening of the Victoria bridge to Montreal, over 9,000 feet long, at a cost of \$6,300,000, was also the beginning of the opulence of newspapers, the most efficient of which then sent for the first time special correspondents to report the prince of Wales, who arrived in Canada to open the bridge.

Personal and Otherwise.

Thackeray's Lord Steyne is said to have been a pen portrait of an ancestor of Lord Yarmouth, who married Harry Thaw's sister. The Lord Yarmouth whose picture was painted in Steyne married Mlle. Fagniana, who inherited from George Selwyn £30,000, £100,000 from another man, and still another immense sum from Fagniana.

Unique Bible.

The most costly book in the royal library at Stockholm is a Bible, and there is not another just like it in the world. In weight and size alone it is unique. It is said that 160 asses' skins were used for its parchment leaves. Each page falls but an inch short of a yard in length. The width of the leaves is 20 inches. The covers are solid planks four inches thick.

The Crocodile.

The moment that a young crocodile breaks its shell it is to all intents and purposes as active as it is at any time during its life. It will make straight for the water, even if it be out of sight and a good distance off, and it will pursue its prey with eagerness and agility during the first hour of its free existence.

Hint for Dramatic Critics.

It appears that some of the Tokyo dramatic critics have been for some time in the habit of performing in comedies and taking the most celebrated roles. The Japanese critics think, in fact, that before judging the play of the actors they should themselves experience the difficulties of dramatic art.

Given Due Warning.

On an ash tray which has reached England from Germany is the following: "Defilement of the room by ash of cigars is forbidden to the severest. Any one who, notwithstanding, makes guilty of such a one will be punished irrevocably by house arrest."

Girl Jockeys in Japan.

Women jockeys, or rather girl jockeys, have made their appearance in Japan. During the last Tokyo races three favorites were ridden by girls. One, the daughter of a riding master, came in first, while the other two, both geishas, were "placed."

Milk Displacing Alcohol.

In a speech at the Bishopsgate institute Sir Victor Horsley gave some remarkable figures to show how the use of alcohol in hospitals is declining. In 1862 nearly \$10,000 was spent on alcohol in the London hospitals and \$15,000 in milk; in 1902 the situation was almost exactly reversed.

Wonderful Insects.

Insects are the strongest and swiftest of living things, in proportion to their size and weight. Their flying, running, jumping, carrying and killing powers are wonderful, when measured by their own dimensions.

Jewish Bride's Position.

In Jewish marriages the bride always stands at the right hand of the groom. With every other nation of the world her place in the ceremony is at the left.

Contentment.

Do not seek to have all things happen as you would choose them, but rather choose them to happen as they do, and so shall the current of your life flow free.—Epictetus.

An Opportunity.

Opportunities are very sensitive things; if you slight them on their first visit you seldom see them again.—John Ruskin.

The High Compact.

The highest compact we can make with our fellow is: Let there be truth between us two forevermore.—Ralph Waldo Emerson.

Great Truth in Few Words.

He that runs out by extravagance must retrieve by parsimony.—From the Dutch.

And Always in Order.

Good counsel ever comes too late.—From the German.

Where Nutriment Is Lost.

If meat is put into cold water first, or boiling, there will be a constant oozing of albumen from it. There will be found more albumen in the scum that arises than in the meat itself. Mutton, cornbeef, or fish, if first put into scalding water will have the pores at once plugged by the surface albumen, and thus all that is vitally precious will be retained. By putting salt in the water, quick coagulation is especially aided. The nutritive quality of fish and its flavor is best obtained by roasting or baking.—Farming.

This Is Worth Knowing.

It may be useful to know that in case of sudden need, such as often arises in warm weather, a simple form of starching is the use of borax water. A quarter of a teaspoonful of borax in half a teacupful of cold water will give a dressing like new to embroidered cuffs and collars or stocks, even those made of linen. The article should be dipped in the borax water, wrung out and rolled out in a dry cloth for a few moments before ironing.

Songs and Sentiment.

It is a singular fact that in proportion to the wealth of melody of a nation so does its emotional side develop. Remarkable instances of this are to be found in the United Kingdom. In Scotland, Ireland and Wales—countries rich in national songs—the emotional nature is strong; in England, where the melodies, if sweet, at any rate are not so touching and appealing, sentiment is slight.

Climate and Stature.

Some of the strongest and most active races of men live in the coldest inhabited regions. Alaskan Indians are often fine fellows in physique. On the other hand, there are splendid savages in Zululand and other tropical regions. Mountaineers and fishermen of the flattest coasts are not noticeably unequal in bodily development and prowess.

"Settling Up."

Many words of most august sound prove to be of quite commonplace ancestry when traced to their origins. "Finance" is really only settling up. Literally, it is just "ending," and was formerly used in that very simple sense in the English language. Then it came to signify settling up with a creditor, and acquired the special sense of ransom.

Difficult to Absorb.

From Omaha comes the story of a cow swallowing a \$100 diamond; in Cincinnati they found that a catfish had swallowed a gold bracelet, and now a Pittsburgh bulldog has swallowed \$19.73 in money. These stories are getting hard to swallow.

Reform in Tennessee.

We have been elected recorder of this here town, and as soon as we air sober we air going to interduce the darndest era of reform ever seen in this country. We are going to suppress all the blind tigers and confiscate all their booze.—Harde-man Free Press.

Divinity.

There is divinity within us which is cramped, dwarfed and unable to express itself. Give it freedom; let it act and speak; crown it with authority and you will behold a miracle. Thrust aside the man by thinking of yourself as the child of God with a destiny that stretches into the invisible eternity.—Exchange.

A Profitable Divorce.

France now consumes more than seven times as much absinthe as it did in 1901. A separation from absinthe might have been better, after all, for the French than the separation of church and state.—Louisville Herald.

A Slander.

The statement that the Missouri mule cannot stand the Philippines climate is a vile slander, of course. The Missouri mule can stand anything, and if necessary kick it into smithereens.—Kansas City Journal.

From Vladivostok for Europe.

Once every week a perfectly equipped express train leaves Vladivostok for Europe. The journey to Berlin may be comfortably made in less than 14 days and to Paris or London in 15 days.

Hawaiian Kapa Cloth.

The kapa cloth of the Hawaiian islands is made from the bark of the paper mulberry tree. Bark cloth is also made to some extent in the Philippines.

Smallest Vertebrates.

The smallest thing with a backbone is the sinarapan, a little fish recently discovered by scientists in the Philippine islands. It measures about half an inch in length.

Of Absorbing Interest.

"Aside from the principle involved and in addition thereto," remarked the great financier, "the banking business is one of absorbing interest."

Language and Constitution.

A change of language invariably betokens a change in the social constitution of a country.—Mme. de Staël.

Best Legacy to Leave.

A man cannot leave a better legacy to the world than a well-educated family.—Thomas Scott.

Uninhabited Islands.

In the Indian ocean only 370 out of 16,300 islands are inhabited.

Grasshopper in a Glacier.

One of the small glaciers in Montana is of especial interest on account of the fact that in the mass of ice there are imbedded two strata of grasshoppers, each about a foot thick. There are literally tons of grasshoppers in the ice and the question naturally arises as to where they came from. The most obvious explanation is that centuries ago two enormous swarms in course of migration were caught in a snowstorm, chilled and buried in the snow, where they have remained till now in a perfect state of preservation.—Country Life in America.

Immense Russian Sturgeon.

The Russian sturgeon has been known to attain a length of 20 to 25 feet and a weight of 3,000 pounds. It is this species, once extremely abundant in the Danube, Volga and other large rivers which has furnished the salted roe called caviare. The sturgeon's bladder is used for isinglass. When sturgeon is eaten its flesh is found to be firmer than that of other fishes, well-flavored, though somewhat oily.

More Chewing Tobacco Used.

One of the largest retail tobacco dealers in the United States says that the consumption of chewing tobacco has increased almost 50 per cent. in five years. He attributes this increase to the automobile, because it is impossible to enjoy a cigar or pipe while whizzing along in a motor car. There is also danger of sparks or ashes from the lighted cigar or pipe getting into the eyes.

Housework a Means of Grace.

The French women have graceful figures even after the dreaded period of middle age, and this is due to the fact that they eat little and exercise much in their own homes. They take very little outdoor exercise, such as the English women delight in, but they are always busy about their homes, one reason being that they are economically inclined, and another that they have a horror of adipose tissue.

Bowles Was Disappointed.

Charles H. Bowles, a resident of Plymouth, N. H., and president of the savings bank, had invited a friend in to spend the evening for a little chat and a pipe. The friend arrived in due time and greeted his host with the remark: "Why, I forgot to shave!" Mr. Bowles looked much disappointed and said: "That is too bad; now we won't have a big good time."

Cleaning Leather Bags.

To clean leather bags, peel and cut a banana, and with the cut portion rub the bag all over. Finally go over the bag with a clean sponge dipped in neat's-foot. Let this soak in for three or four hours before polishing with a chamois skin.

Greeks Fond of the Swallow.

The Greeks regarded the swallow with peculiar affection. There are a number of charming folk songs to welcome the swallow, which comes unheralded from space, in a night, and, after a brief stay, assembles its bands and vanishes.

In Few Words.

Miss Ellen Terry has written the following letter to the students at the Leeds Dramatic college: "I have been asked to say a word to you. If I say one word it will be 'Work.' If it were two words I should say 'Be patient,' and if it were three words, 'Don't be vain.'"

Adonis Gives Warning.

Adonis had just been introduced to Venus. "I don't want to butt in or anything like that," he said, warningly, "but I'm serving notice that if I ever catch you running around shopping in white shoes I'll cut you out."

Not the Limit of Trouble.

Job was taking his breakfast off the mantelpiece. These boils are pretty tough," he said, "and I'm having plenty of trouble, all right, but, anyway, Tom Johnson isn't born yet."

Ancient History.

"That guy Goliath may be able to withstand the stones from my sling," said David the night before the battle, "but there are other stones. I can hand him a piece of restaurant cherry pie, maybe."

Merlin's Lament.

Merlin kicked the black cat under the sofa and threw himself petulantly into a chair. "If I could just learn that three-cent fare trick," he growled, "I'd have any other conjurer in history beaten a city block."

Banana Flour Popular.

About 50 tons of banana flour is sold in the British Isles every year. It costs too much to be popular for food, but it is valued for the diet of children and invalids.

Looks for Disastrous Earthquakes.

Prof. Gregory, of the Yale geological department, says the San Francisco earthquake will be repeated with universal disastrous results.

Baseball Rapidly Propelled.

A baseball thrown by a professional player with a good arm goes at the rate of about 80 miles an hour.

Health Hint.

Don't abandon a meal, for this may result in a bad headache, but eat with regularity, and not too much.

For the Stove.

A teaspoonful of sugar to the stove blacking will add a material luster to the stove.

Condemns "Doping" of Workmen.

In his charge to a Warren county (Ala.) grand jury Judge Rush drew attention to the alleged "doping" with cocaine of roustabouts by steamboat mates. The judge stated that it had come to his ears that the mates carried a supply of the deadly drug, which they gave to the negroes in liberal doses. When stimulated by the drug the roustabout's capacity for work is greatly increased, but, by the time the trip is ended he is a physical and mental wreck.

Sturgeon Lives Long.

Young sturgeons grow very rapidly, although after the fish has attained maturity its growth is much slower, but continuing for many years. Frederick the Great attempted to introduce the sterlet, a kind of sturgeon, into Prussia about the year 1780. Some of these fish brought in at that time were found to be still alive in 1866, nearly 90 years later. The Russian sturgeons are believed to live to be 200 or 300 years old.

Horse Inferno.

"Paris is the inferno of horses" is a very old aphorism. French cabmen and carters have in general little love for the horse. Many consider this wretched quadruped as a simple tool, a motor with four feet, rather than as a precious servant worthy of regard and consideration. Not a day passes in the capital without one witnessing revolting brutality, often coupled with real stupidity.

Orchard Brings Big Price.

Wenatchee (Wash.) orchard land recently reached the \$1,500 mark, when a tract of 11½ acres was sold for \$17,475. The entire tract is in orchard, some of the trees being 19 years old. Notwithstanding the high price paid, it is believed that it will in three years net to the owner the price paid.

Wonders of the Age.

To keep the water ways to Asia open has saved all the cities of the eastern Mediterranean. But the movement from Greece and Italy, from the Black sea, even from Portugal, to the United States is as remarkable as the stability of the Turkish empire, which is as good as any of the Christian states near it, or it never would have stood so long.

Letter Writing a Lost Art?

To-day women sometimes take pains to be entertaining in their epistles, and men, as a rule, do not. The art of spelling even may come to be lost, as by the lady letter writer of conservative opinions who described a certain newspaper as a "wrotton wradical wrag."—Andrew Lang, in N. Y. Critic.

Year's Casualties.

The number of homicides and deaths by violence in the United States in 1905 was 9,212, as against 8,482 in 1904. Suicides, 9,082, as against 9,240 in 1904. Killed on steam railroads in 1905, 3,142; injured, 15,904. Killed on electric and elevated railroads, 464; injured, 2,622.

Golf Most Widely Played Game.

Golf is probably the most widely played outdoor game in the world, excepting simple sports of children such as "I spy" and leap frog. More men and boys play baseball and cricket, but not in so many places, so greatly separated.

Man's Superiority.

Only the apes can compare with men as all-around gymnasts, and it is doubtful whether any of them could compete successfully with human athletes in many sports, even if they had sufficient intelligence to know what to do and how to attempt it.

Where Men Are Supreme.

For great distances man is one of the strongest and fastest animals in existence. It is doubtful whether any four-footed beast noted for its endurance and fleetness could beat the best records of the six-day go-as-you-please contests.

Cash Down.

"Your honor," said a lawyer to the judge, "every man who knows me, knows that I am incapable of lending my aid to a mean cause." "That's so," said his opponent, "the gentleman never lends himself to a mean cause, he always gets cash down."

Never Woke Up to See.

While two friends were walking home the other day they were joined by one of the eccentric old characters of the town. "My friend," said one of the chumps, "how do you sleep now?" "I never wake up to see," replied Jim.

Scarce Article.

"Don't be looking for a wise man by candlelight," says a Georgia philosopher. "With all the bright sunshine heaven sends down, you may look till you're grayheaded with it locating one!"

To Remove Stains on Marble.

Try a paste made of whiting, powdered soda and water to remove these unsightly stains. You might mix a little liquid ammonia with it if they are bad.

The Right and Left Hand.

The right hand, although more sensitive to the touch than the left, is less sensitive than the latter to the effect of heat or cold.

Prefer American Rifles.

British soldiers in India who win hunting permits by good conduct buy and use American rifles, when they can get them, as a rule.

Plague of Belgian Hares.

The prediction that the Belgian hare fed would lead to the creation of a public pest has been realized in complaints that come from Bennington county, Vermont, where farmers are suffering from the depredations of rabbits and have no redress. The man who loses 1,000 head of cabbage, as in Dorset, has his opinion of people who freed their Belgian hares after it had been found unprofitable to rear them.

Revolutionary Relic.

James R. Putnam, while at work in his garden at Rutland, Vt., picked up a brass button about an inch in diameter. When it was cleaned it was found to be a military button in a good state of preservation. It is flat, with the word "Massachusetts artillery" around the edge of the face. In the center in relief is a cannon mounted on wheels and beside a flag on a staff. The button is a revolutionary relic.

Most Marvelous of Birds.

The swift flying swallow is ever on the wing. It has attained the perfection of speed, without friction and noiseless. Every motion is directed to its swooping flight for insects—now darting upward, to right, to left so rapidly that the eye cannot follow it—and its nervous organism must be wonderfully constructed to act upon a delicate and certain mechanism devised for swift flight.

Just Wanted to Have It Around.

Old Donald Mackintosh was ill. The minister was with him. He listened with patience to the latter's exhortations, but at length put a question: "Will there be whisky in heaven?" "Certainly not," the minister replied. "I am surprised that you should ask such a question." "Well, sir, it's no that I care for 't myself, but it looks weel on the table!"

University Five Hundred Years Old.

On December 4, 1909, it will be 500 years since the University of Leipzig was organized by the secession of several thousand German students from the University of Prague. Arrangements are already being made to celebrate this semimillennium by the location of a massive work on the history of the city and the University of Leipzig.

Always Had Kick Coming.

This old lady was a hypochondriac. Her various diseases interested her, and she talked of nothing else. One day a visitor found her eating heartily and inquired as to her health. The invalid sighed and answered: "I feel very well, ma'am, but I always feel bad when I feel well, because I know I am going to feel worse afterward."

Old Universities.

Oxford and Cambridge hold an undisputed primacy among English universities. The most strenuous and enlightened modern effort can produce nothing to rival the dignified tradition of centuries of learning set amid quiet lawns, mediaeval buildings and beautiful music.—University Review.

Women and Their Fads.

A London physician has discovered that the wearing of heavy necklaces is responsible for physical infirmities. Necklaces, he says, cause a pressure on the important nerves that converge at the base of the skull. This is balm, indeed, to the woman who owns no jewels.

Learning Obedience.

The only way of learning to do a thing is to do it. The only way of learning obedience from Christ is to give up your will to him, and to make the doing of his will the one desire and delight of your heart.—Andrew Murray.

Surprise for the Fish.

Seven thousand five hundred gallons of adulterated wine were, by order of the police, poured into the River Necker last week. The effect on the local fish, who were used to nothing stronger than water, was, we understand, deplorable.—Punch.

Jeweler Is Wily.

The newest scheme of a wily jeweler is to try to get his customers to buy jewels that match the color of their eyes. Of course, he is always sure to tell them that it enhances their beauty.

Getting Ready for Fall

We wish to announce to the trade that we are daily receiving all that is new in the coming season's styles in Dress Goods and the Dry Goods line generally. In fact we will be better prepared to attend to your wants in the line of Dry Goods, Clothing, Shoes, Etc. this season than ever before.

We Invite You to Our Store

We ask that you take a few minutes off while in town and look through our immense stock. You will be better prepared to trade then as you will have had a chance to inspect one of the largest Dry Goods stocks in the new state of Oklahoma

Remember the Big Cash Store will make your money go farther

SCOTT-HOARD CO.

UNITED STATES LANDS MARINES ON CUBAN SHORE

Havana, September 14.—One hundred and twenty sailors from the United States protected cruiser Denver camped Wednesday night in front of old La Fuerza Castle, facing the Plaza de Armas, the little park in front of the Presidential palace, which is the seat of the Cuban government. The American flag was planted just inside the low stone coping separating the castle grounds from O'Reilly street, which thoroughfare passes between the camp and the Plaza de Armas. The American soldiers were armed with regulation rifles, with the exception of a few who carried revolvers or carbines. Two field howitzers and two rapid-fire guns were sent ashore with the steamers and pointed across the pretty little park, a significant warning to any one approaching the executive headquarters of the Cuban government with hostile intent.

The Denver, which originally anchored further up the bar, dropped down this evening to a position abreast of the foot of O'Reilly street and in front of the offices of the Captain of the port, so as to be conveniently near the detachment sent ashore and close at hand in case of need.

The whole business was done so quietly and quickly that it caused the greatest surprise. The reason for the sudden landing of the American sailors

was a conference between President Palma, Charge d'Affairs Sleeper and Commander Colwell.

Tin-top and Mistletoe.

The marshal's office received the analysis of two beverages, Tin-top and Mistletoe. These beverages were sent to Prof. DeBarr of the Oklahoma University at Norman a few days ago. The analysis of these two beverages show Tin-top to contain 1.66 per cent of alcohol, and 3.847 per cent of malt. Mistletoe is shown to contain 1.962 per cent of alcohol and 6.84 per cent malt. Therefore, Marshal Porter says all dealers will be allowed to handle these beverages in the future as they are shown by government analysis to contain less than two per cent of alcohol. These are the only two beverages that have been analyzed by the government which have shown to contain less than two per cent as allowed by law.

FOR RENT.—Good office rooms on Main street. Little Bros. 104-tf

The Rain Has Stopped

many people from buying new fall clothing, if it is you, bring your old suit or overcoat down to Nash and have it made new. New suits to measure from \$15 up. Ladies work a specialty. 148-26t w4t-22

COTTON WAREHOUSE WILL BE ERECTED AT ONCE

On Thursday the committee of the County Farmers' Union and the commercial club of Ada completed arrangements whereby a warehouse will be built. A deed to lots 2, 3 and 4, in block 59, situated just north of the compress, will be furnished the union and a building will at once be erected for the storage of cotton. In addition, the union will lease some adjacent lots and operate a cotton yard.

We are informed that the contract has been let for the erection of the building and that the work will be rushed to an early completion.

New Cure for Mosquitoes.

No one need suffer from mosquitoes. Just take a small piece of watermelon and set it near the bed. The insects will gather about it like flies around a sugar bowl and you will enjoy a good night's rest.

WANTED.—City salesman of neat appearance to call on every merchant and professional man in Ada. Good proposition to offer the right party. Address, with reference, Manager, Box 71, Ada, I. T.

The carpet bagger must go when the people have an opportunity to express their wishes.

NEW MEXICO DEMOCRATS INDORSE JOINT STATEHOOD

Santa Fe, N. M., Sept. 14.—After being in session since early Wednesday morning until almost noon Thursday, the Democratic territorial convention nominated O. W. Larroza, of Los Vegas, as its candidate for delegate to congress. It is said the nomination was tendered to some half dozen prominent Democrats of this territory, who declined to accept.

Resolutions containing an indorsement of William Jennings Bryan for the presidency in 1908 were enthusiastically cheered. Joint statehood for New Mexico and Arizona was indorsed.

In Commissioner's Court.

The case of U. S. vs Bill Knox charged with larceny and forgery, was heard before Judge Winn Thursday. Knox was held in \$500 bonds on each charge, which was furnished.

BUSINESS MEN CO-OPERATE FOR BENEFIT OF ALL

Tuesday night there was organized at the U. S. court house a local association of the Retail Merchants Association of Oklahoma, by Joe S. Jennings, state organizer.

Some fifteen local merchants were present and the following officers were elected: Chas. Little, president; W. B. Jones Vice President, and R. S. Tolin, secretary and treasurer.

A committee on membership was appointed, as was also a committee on by-laws and constitution.

The committee on membership began active work this morning and with the exception of three or four, every merchant in the city joined the association.

The object of the association is: To

more closely unite the merchants of the state; to co-operate for the benefit of all; to abate trade abuses; to expose fraud adulterations; to watch and influence legislation toward the better protection of capital; to assist its members in collecting delinquent accounts; protection from the men who will not pay their debts and to observe the Sabbath and all legal holidays.

Burglary at Roff.

Roff, I. T., Sept. 14.—Thieves entered the drug store of W. C. Rea here Wednesday night and carried off two six-shooters and a number of rings. The loss is estimated at about \$50. Entrance was gained by knocking out a glass in the back door.

INDIANS WANT MONEY FOR LAND GIVEN TO FREEDMEN

Tishomingo, I. T., Sept. 14.—The Chickasaw Legislature is in session considering matters of importance to the welfare of the tribe before the tribal Government dissolves. The Legislature will be in session about thirty days, and it is said that several memorials will be passed the nature of which cannot be learned.

Said Senator Young: "There are some matters to be settled that are of vast importance to my people. We are greatly displeased with the division of our lands among the new ones of the freedmen, and if Congress persists in taking our estates for that purpose we want our pay for the lands. The judgment rendered by the Court of Claims in our favor for the lands that have been allotted to the freedman has not been paid, and we would like to have our money. Members of the tribe need all the money that is coming to them to use in improving their allot-

ments. The question of public roads in this country is one of importance to the whites as well as to the Indians. We are as anxious as other people that good roads be built in our country, but we are bitterly opposed to having all the expenses saddled on the tribal government. The matter of placing roads on section lines is no easy matter. The Indians who must give up part of their lands for this purpose will want pay and the entire expense connected with the building of roads will be enormous, and we people take it as being rank injustice that this money be taken from our tribal funds."

The Indians had rather have their new born be given the surplus lands than to have these lands sold and the money be divided out per capita. The Governor did not touch upon these questions in his annual message, but he is thoroughly acquainted with their importance and is in accord with the Legislature in their settlement.

R. O. WHEELER, MANAGER

OVERDRAFTS

It is becoming well known by business men that overdrafts, whether large or small, are not approved by the controller of the currency. The large central banks allow overdrafts only in a very small way, and this, it matters not how small, is not approved by the powers that be. This unbusinesslike habit of overdrafts grew out of advancing on moving products, such as cotton, grain and fat stock on the move. The overdraft system is wrong and the man whose account is always overdrawn is the man who spends more money than he makes and will finally have no bank account.

W. H. NETTLES

Subject to the action of the Democratic district primary.

For Delegate to the Constitutional Convention

J. R. LAWRENCE
CARLTON WEAVER

MR. CARNEGIE, at the opening of the Roosevelt campaign in 1904, in a burst of partisan philanthropy, said he would give one million dollars to the Republican campaign fund to elect Mr. Roosevelt. Did his liberal donation have the effect of enervating the judicial arm of the government? It looks so, for there has been no attempt to prosecute the Steel Trust, and it must be remembered that Mr. Carnegie owns \$300,000,000 of the Steel Trust bonds. As Mr. Roosevelt has discovered that "the question of revising the tariff stands wholly apart from the question of dealing with the so-called trusts—that is, with the control of monopolies and with the pervasion of great wealth in business, especially in corporate form." Is it possible that President Roosevelt does not know, or for partisan purposes, desires that such "so-called trusts" as the Steel Trust, the Sugar Trust and most manufacturing combinations that are complete or partial monopolies, have been created and could not exist without tariff protection against foreign competition? The protective tariff is the mother of those trusts and is still nursing those lusty infants.

Architect Needed Nowadays.
Flubb—Hear about Saulig? He's a successful architect.

Dubb—Architect? Why, he doesn't know the difference between a Greek temple and a dog kennel.
"No; but he can put a six-room apartment where there is only space for a five-room flat."—Columbia Jester

Too Practical.

Miss Pense—How do you like this new beauty doctor?

Mrs. Ques—He's perfectly horrid! I asked him what I could do to develop my arms and he said I'd better go home and knead my own bread.—Detroit Free Press.

Thrown Out.

"And you say you lost your position by the great earthquake in San Francisco?" inquired the kind lady.

"Yes, mum," replied Frayed Franklyn.

"What was your position?"
"I was asleep in a barn at the time."—Milwaukee Sentinel.

BAD HEALTH.

Worry, Overwork, Hasty Eating, Excessive Use of Liquors, Loss of Sleep, Neglect of Nature's Calls. These Bring on the Deadly Bright's Disease.

Thousands Die of It Every Year.

Kidney disease is the enemy we have most to fear as a result of the feverish restlessness of modern civilization. It is a treacherous enemy, working out its deadly effect under cover of the most trifling symptoms. The first indication of changes in the urine, frequent headaches, digestive troubles, should be the signal for prompt remedial measures. Prickly Ash Bitters is a kidney remedy of the greatest merit; it is soothing, healing and strengthening, quickly relieves the aching or soreness that always appears in advanced stages, checks the progress of the disease and through its excellent cleansing and regulating effect in the stomach, liver and bowels, it brings back the strength and ruddy glow of vigorous health.

Accept no substitute. Insist on having the genuine Prickly Ash Bitters with the large figure 8 in red on the front label.
Sold Everywhere, Price \$1.00 per bottle.

WHERE LAWYER CAME IN.

Worked Up a Shock for the Passenger and Got Damaged for It.

Uncle Billy Smith had got back home after a trip to see his sister, and sitting on the post office steps, relates the Baltimore American, he said to the men who were asking questions:

"Well, in the car with me was a lawyer. I'd been talking with him and feelin' sorry that he hadn't taken to some honest profession, when the cars run off the track. Nobody was hurt, but our trunks in the baggage car was all smashed up. Party soon a man comes around, and ask us to make out the damages. I wrote down that I had lost two shirts, three pairs of socks, an old suit of clothes and a pair of shoes, and that my damages was ten dollars. The lawyer looks at the paper and said:

"But you hadn't added anything for the shock."

"What shock?"
"The shock to your feelin's. Put down \$200 for that."

"But have my feelin's been shocked?"

"Of course they have, and you must get pay for it."

"I put her down as he said, and two days later I got my damages in hard cash. I've all along thought a lawyer was next door to a pirate, and that he'd do most any mean thing, but I've had to change my mind. That feller jest worked up a shock for me and got me \$200 extra, and if my son Sam wants to go into the law business I shan't do any great objectin'."

SHE REFUSED TO OBEY.

Demise of Woman Who Had the Old Marriage Service Revised.

Mrs. Sarah J. Harper Starr of Bellevue, was buried the other day in the family mausoleum at Zelienople, Penn., and a most wonderful life was ended, says the Pittsburgh Dispatch.

Mrs. Starr's marriage in Cincinnati on May 22, 1849, is of historical importance in ecclesiastical circles. Miss Harper was 16 years old and had been studying in college with a view to missionary life in foreign lands. Dr. Starr, a young physician, was studying toward the same end and the couple decided to wed.

Miss Harper had ideas of her own on the question of the word "obey" in the ritual of the church, and decided that for her it should be eliminated.

She found a friend in Rev. Maxwell Bloddis, assistant pastor of Morris chapel, Cincinnati, who promised to omit the word during the ceremony, and she was married, but friends were inconsiderate enough to say the marriage was invalid and at the next meeting of the general conference of the Methodist Episcopal church, held in Cincinnati, the clergyman who had omitted the word was "churched."

Finally the question became general and later, when decisive action was taken, the sentence "serve and obey" was ordered stricken out of the matrimonial ritual of the discipline of the Methodist church.

ENGLAND RAN LOTTERIES

Source of Public Revenue from Early Times Till the Year 1824.

Lotteries were common in ancient Rome, and during the middle ages lotteries were utilized by the Italian merchants for the disposal of their goods.

Some of the Italian states then adopted the lottery as a means of raising revenue, and the institution of state lotteries afterwards became very common and very popular throughout Europe.

The earliest English state lottery of which there is any record was in 1569, when 40,000 chances were sold at ten shillings each, the drawing taking place in the west door of St. Paul's cathedral. The prizes consisted of articles of plate, and the profits were employed for the repair of certain harbors.

Early in the reign of Queen Anne private lotteries were suppressed, "as public nuisances," but government lotteries were still maintained, and from 1709 to 1824 considerable sums were annually raised in lotteries authorized by act of parliament.

The average yearly profit to the government from 1793 to 1824 was over \$1,700,000. On the ground of injury to public morals, lotteries of all kinds were abolished in England in 1826.

To Save Table Cloths.

A friend with a large family used to be much disturbed over the frequency with which she had to renew her table linen, and especially the tablecloths. At last she hit this plan: When she buys her linen, she sees to it that it is wider than necessary, and also a few inches longer. Then when the edges show the slightest indication of wear, she immediately takes off a strip from one side, four or six inches wide, and a strip from the end. This of course throws the wear upon a different place, and her cloth lasts just as long again. Isn't it well worth trying?

MEN AND WOMEN.
Use Big 8 for unnatural discharges, inflammations, irritations or ulcerations of mucous membranes. Painful, and not acting. Sold by Druggists, or sent in plain wrapper, by express, prepaid, for \$1.00, or by bottle \$2.00. Circular sent on request.

RAPID FLIGHT OF TIME.

Mule That Aged Five Years Between the Months of February and June.

Mr. Justice Brewer, of the United States supreme court, in lecturing to his law class at the George Washington university, says the American Spectator, told the following story:

"I know of a case once where two darkies swapped mules. One of them was an old hand at the business, and in making the trade he represented his mule to be seven years old, and told of the many good traits the animal had not. This was in February. About two months later the other darky began to realize that he had been victimized in the bargain and that the beast was fully 12 years old. So he decided to go back and tell the swindler he had lied to him about the animal. However, owing to it being the busy season of farming, he was not able to go until about the middle of June. He finally did go, and told his man what he thought of his racially misrepresentations about the mule.

"You say," said the other fellow, "dat when you got de mule in February he was seven years old, and now it's June and he's 12 years old?"

"Yes, I do!" was the angry response.

"Well, sah, time sure do fly."

JAMAICANS LACK GINGER.

Seek Employment at Panama, But Are Said to Be Wasteful and Stupid.

Jamaicans are apparently jacks of all trades. Hungry for the big wages of Panama, school teachers, barbers, shoemakers, store clerks have flocked to the isthmus to find employment as masons, carpenters, blacksmiths and painters indifferently, says Everybody's Magazine. They are wasteful; they are stupid; they are possessed with an unutterable hatred of exertion other than conversation, preferably on religious or ethical topics. Here are some more statistics from my friend the foreman of painters: Hospital 54 is a building about 40 feet square; the amount of white lead required for the paint to be applied to it would be here in the states, about 75 pounds; it was necessary to use 250 pounds of white lead on the job; none of it was stolen; none was carried away; the white lead and all the other wasted materials which were mixed with it are chargeable to the Jamaica negro's inefficiency. Yet the canal must be built with Jamaica labor in the main. Some workmen are being brought from Galicia, in Spain; some have been imported from Martinique; a few, very few, have come down from the United States.

Submerged Roman Cities.

Late explorations of the Italian coast near Pompeii have changed the opinion of antiquarians, says the New York Tribune. The submerged Roman ruins along the coast used to be regarded as foundation walls thrown out for sea baths, but it was made clear that they are the remains of noble mansions, and that they point to the time when the land on which they stood was far above the level of the sea. The shore is, in fact, strewn with the wreck of buried cities. Coast roads have vanished, ancient quarries have been flooded and the breakwaters of the harbors of classical story covered fathoms deep with water. A great submarine sea wall, with concrete piers 17 feet high, still protects the fragments. But neither the fragments nor the great sea wall have been visible in the light of day for 2,000 years.

Bond Election.

[Notice of Special Election.]

Notice is hereby given that a Special Election by the voters of the City of Ada, Indian Territory, who are qualified electors owning real or personal property subject to taxation in the said City of Ada, Indian Territory, has been called by the mayor and city council of Ada, Indian Territory, and will be held at the mayor's office in Ward No. 1, and at John Beard's building on Broadway in Ward No. 2, and at the United States commissioner's office in Ward No. 3, and at the John Barringer building on Townsend avenue between Main and Twelfth street in Ward No. 4, of the City of Ada, Indian Territory, on the 8th day of October, A. D. 1906, between the hours of 8 o'clock a. m. and sunset of same day, as follows:

To vote on the proposition of issuing Forty Thousand Dollars in bonds of said City of Ada, Indian Territory; the terms and conditions of the bond issue is more particularly described and set forth in the resolution of the city council of the City of Ada, Indian Territory, passed on the 3rd day of September, A. D. 1906, and herewith published at length as a part of this notice:

RESOLUTION. Concerning the issuing of bonds of the city of Ada, Indian Territory. Good cause appearing it is deemed advisable by the Mayor and City Council of the city of Ada, Indian Territory, to issue bonds for the following purpose, to-wit:

For the construction of additional waterworks; and, whereas under the provisions of Section 55 of Supplemental Agreement between the Choctaw and Chickasaw Nation and United States (32 Stat. 641); putting in force the "Laws in force in the organized Territories of the United States" (30 Stat. 252) and under the limitations of the General Bond Act approved May

19, 1902, (52 Stat. 200), the Mayor and City Council of said city are required first to submit the question of the issuance of said bonds to the qualified electors of said city who are owners of real estate or personal property, in said city, subject to taxation, to be by them voted upon.

Therefore, be it resolved by the City Council of the City of Ada, Indian Territory, that the Mayor of the said city of Ada, Indian Territory, submit the following proposition to the qualified electors owning real or personal property subject to taxation, in the said city of Ada, Indian Territory, to be by them voted upon, at an election to be held for that purpose, in Ada, Indian Territory, on the 8th day of October, A. D. 1906.

Shall the bonds of the city of Ada, Indian Territory, be issued for the following purpose and upon the following conditions, namely: in the sum of Forty Thousand Dollars, for the purpose of constructing additional waterworks for public and private use, in the said city of Ada, Indian Territory, said bonds hereinafter named to be issued in the principal sum of Forty Thousand Dollars and in denominations of One Thousand Dollars each, and to be numbered from thirty-one upwards, and to be known as Waterworks Bonds of the City of Ada, Indian Territory. The principal sum of said bonds to be paid in twenty years from the date of their issue in lawful money of the United States, to bear interest in like lawful money of the date of their issue, interest payable semi-annually at the rate of five per cent per annum; such bonds shall contain all necessary and usual provisions expressing the contract; shall be signed by the Mayor and countersigned by the Treasurer of the city of Ada, Indian Territory, who shall keep a proper record of such bonds; that none of said bonds shall be sold at less than their par value; that the 8th day of October, A. D. 1906, be and the same is, designated and set apart as the day upon which the question of the issuance of the bonds hereinafter specified shall be voted upon by the qualified electors of said city of Ada, Indian Territory, who are owners of real or personal property subject to taxation in said city of Ada, Indian Territory; that it is further resolved that a notice of the said election be signed by the Mayor and Recorder of the city of Ada, Indian Territory; in their official capacity specifying time and places of holding said election and set forth this resolution; said notice to be published in the Ada Weekly News, a newspaper of general circulation published in said city of Ada, Indian Territory, for thirty days prior to said 8th day of October, A. D. 1906.

And be it further Resolved: That the election be held on said 8th day of October, A. D. 1906, between the hours of eight o'clock a. m. and sunset of the same day, at such place in each ward as shall be designated by the notice of said election published by the said Mayor and Recorder of the said City of Ada, Indian Territory; and said election be conducted by election officers, consisting of judges and clerks appointed by one of the judges of the United States District court in the Indian Territory within and for the Southern district thereof.

And be it further Resolved: That the electors of said City of Ada, Indian Territory, owning either real or personal property subject to taxation in said City of Ada, Indian Territory, shall vote at said election by ballot, upon which shall be printed the following words: "Bond election for additional waterworks, Ada, Indian Territory." For issuing bonds of the City of Ada, Indian Territory, in the sum of Forty Thousand Dollars for the purpose of constructing additional waterworks in said city. (Yes) or (No). If in favor of bond issue scratch the word "No"; if opposed to the bond issue, scratch the word "Yes."

That the election shall be conducted in the usual manner prescribed by law and the votes shall be counted, canvassed and returned as provided by law; that it is further resolved that said city of Ada, Indian Territory, after incurring the indebtedness, by virtue of the issuance of said bonds shall by ordinance, which shall be irrevocable, provide for the collection of an annual tax sufficient to pay the interest on said bonds as the same shall fall due and also to provide a sufficient sinking fund to discharge the principal thereof within twenty years from date of said bonds.

Approved, J. P. WOOD, Mayor.
Attest, JESSE WARREN, Recorder.
Passed and approved the 3rd day of September, 1906.

Published the 8th day of September, 1906.
I, Jesse Warren, the duly elected and acting Recorder of the city of Ada, Indian Territory, do hereby certify that the above and foregoing resolution was passed and adopted by the City Council of the city of Ada, Indian Territory, at their meeting on the 3rd day of September, A. D., 1906.

JESSE WARREN, Recorder.
In witness whereof, the said Mayor and Recorder of the City of Ada, Indian Territory, hereunto set our hands and official seals this, 5th day of September, A. D. 1906.

J. P. WOOD, Mayor.

Travel Right

When you have occasion to travel, use the same discrimination in buying a ticket that you would in buying anything else. Assure yourself in advance of what you may expect in the way of comfort and convenience en route.

The Missouri, Kansas and Texas Railroad

with through trains (over its own rails) from St. Louis and Kansas City in the north, to San Antonio and Galveston in the south, offers a ready solution to the vexed question—"How to go?"

If there is any information you would like about a prospective trip, write me. I'll gladly give you the information and if possible have my representative call on you and personally assist you in every way. Think of my offer when you next have occasion to travel. Address

W. S. ST. GEORGE, General Passenger & Ticket Agent, Wainwright Bldg., St. Louis.

Tickets on sale everywhere via Missouri, Kansas & Texas Railway.

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol relieves indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol for dyspepsia does not only relieve indigestion and dyspepsia, but this famous remedy helps all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Mr. S. S. Ball, of Ravenswood, W. Va., says: "I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."

Kodol Digests What You Eat.

Bottles only. Relieves indigestion, sour stomach, belching of gas, etc.

WANTED—Two good road salesmen of neat appearance and ability to call on merchants, bankers and professional men. No fake. Staple line of merit and daily use. Experienced bookkeeper preferred. If you are a salesman this is your opportunity. Address Manager, Box 71, Ada, I. T. 150 2t

The News is in receipt of a copy of a special edition of the Maud Democrat. The write up of the town and surrounding country is well gotten up, but the appearance of the paper would have been improved had the half-tone cuts been scattered through the paper instead of being bunched on the last two pages. Taken as a whole, the issue will do much to advertise Maud and vicinity. 150-2t

Interest in Revival Grows.

The services at the Christian church continue to grow in interest. Mr. Trimble's subject for Thursday night was "What Will Ye Do With Christ?" "The situation is the same today," said Mr. Trimble, "as when Pilate asked this great question. Sin is represented by a robber, and is a great despoiler of happiness. It is not necessary to lift the capstone of hell to hear the wails of the damned. You can hear the clanking of chains and the gnashing of teeth in this life. Sin is the enemy of joy and destroys the very possibility of happiness. If, then, Barabas is displeasing to you, consider well the claims of Christ, for one or the other must reign in your heart."

"Will you reject Him as God's Son? Do you question miracles? We expect things to come in the ordinary way; it is miraculous if they come in any other way. My friends, the first tree did not come in the ordinary way. We have the miracle of matter, the miracle of life, the miracle of thought, the miracle of love. Everything in the material universe had its beginning in a miracle. If the doctrine of the empty tomb was believed in Jerusalem, and by the very people who cried with a demonic voice, 'Let Him be crucified!' it should not be difficult for us."

"What will you do with His right to command? When Peter said, 'Let us build here three tabernacles, one for Moses, one for Elias and one for Christ,' God rebuked Peter, caught away Moses and Elias and said, 'This is my Son; hear ye Him.'"

"What will Jesus do with you?" will be the question uppermost in your mind in that great day. If He says, "Come, ye blessed of my Father," it will be well with you; but if He says, "Depart, I know you not," you will turn to the darkest of despair.

"He knocks at the door of your heart tonight and calls, 'Open unto me.' Will you reject Him and knock in vain at the door of heaven, and call in vain, 'Open unto me?'"

Associational Meeting.

The Zion Baptist association convenes tomorrow morning at ten o'clock with the First Baptist church and will continue in session through Monday following. The introductory sermon will be preached at eleven o'clock tomorrow. Everybody is cordially invited to attend the sessions of the association.

Central Committee.

The central committee, representing each township in the Eighty-seventh delegate district, will meet in Ada tomorrow for the purpose of determining the time and method of holding the delegate Democratic primary.

Dropped In to Do Shopping.

Muskogee, I. T., Sept. 14.—A report reached here today to the effect that the Wycliffes, Charles, Tom and John, were recently in Tahlequah visiting with friends. It is said that they remained in that town for several days, and the fact that they were slightly known in that part of the country except by friends, made their visit a safe one. The main purpose of their visit, according to the report, was to lay in a supply of food and winter clothing. After the necessary purchases were made they mounted their horses and rode back to the hills, once more to assume the roll of hunted outlaws.

As Regards the Cotton Crop.

The following letter was received at this office today and will put right those who have been apprehensive of cotton conditions:

Lula, I. T., Sept. 11.—I have Examined Crops for the Past few weeks I was down to South M. C. Pre-Nuptial Reception.

A number of young lady friends of Miss Anna Carroll, assisted by Mrs. W. S. Thompson, gave a pre-nuptial reception to Miss Carroll at the home of Mrs. Thompson Thursday night.

The handsome rooms were decorated with roses and honeysuckles and presented a beautiful appearance under the rays of the shaded lamps.

Upon the arrival of the lady guests they were assembled around a table and at each plate was a small fortune pie which held a picture of her future husband. Apples with burning candles were next provided, and a contest ensued to determine who would be the first to take unto herself a husband. Under the rules the candle that burned the longest period would designate the first to be married. This was the candle that sat before the plate of Miss Amanda James Haynes. The first one to burn itself out was that of Miss Taylor, who, according to the rules of the game, will remain a long time in single blessedness. While the candles were being consumed the guests were served with sherbert and cake.

At this time the hostess passed each guest a slip of paper, upon which each one was to write a recipe, which later will be compiled into a cook book and be presented to Miss Carroll.

During the evening each guest presented the bride to be with a fancy garter as an emblem of good luck. Miss Carroll was also the recipient of a handsome cut glass vase from the guests.

As a fitting close to the social event all gathered around Miss Carroll and sang "Good Night, Little Girl, Good Night."

The guests of Mrs. Thompson voted her an excellent hostess and vouch one of the most pleasant evenings in the history of Ada society.

A Narrow Escape.

Friday morning, while Crockett Daggas was driving in the low lands along Sandy, a large driftwood limb fell from a tree, striking him across the neck and back. He was rendered unconscious for a time, but rallied, and was brought to Ada, where he received attention.

During the high water considerable driftwood was carried through the bottoms, much of it lodging in trees, which, upon the slightest movement, fall to the ground, hence the accident.

While it is thought Mr. Daggas is not seriously injured, he is suffering considerably from the shock.

"Portland Cement."
On the island of Portland, in the south of England, there are certain quarries of limestone, which have been worked for many years, in former times producing building stone. In 1824 an Englishman named Joseph Asplin, of Leeds, patented a process for mixing and burning lime and clay. The product looked so much like the Portland limestone that he called it "Portland cement," from which commonly known name given to nearly all kinds of hydraulic cement was derived.

What Made It Valuable.
An excited individual ran up to a porter at a railway station and asked: "Have you seen a parcel I left on this seat?" The porter replied that he had not. "Oh, what shall I do?" exclaimed the excited passenger. "It contains three poems I have written." "Can't you write them again?" asked the unsympathetic porter. "Yes, I can do that, but," hesitatingly, "there were two sandwiches in the parcel as well."—Christian World.

Cigarette Popular in the East.
Says a writer in the Peking and Tientsin Times: "The cigarette has caught the popular favor in the east and far east, being a smoke seemingly peculiarly adaptable to Asiatics. The long-stemmed pipe is giving way everywhere to the cigarette. All classes of Chinese take to it, even rickasha coolies, some brands of the cigarette being so cheap that the beggars in Peking are seen often indulging in a quiet smoke."

Men Carry Great Weights.
No draft animal is asked to carry so great a load in proportion to its own weight and size, as some men saddle themselves with. Turkish porters in Constantinople often carry more than their own weight, and the Indians and Eskimo who acted as pack carriers in Alaska, when the gold field rushes made the demand for transportation imperative, used to do the same thing, at times.

Product of the Times.
The well bred man of pleasure is gradually dying out and giving place to the tearing, rushing, money grabbing, excitement hunting, stangy, mannerless, selfish devotee of horseflesh and chorus girls we meet so often in the drawing-rooms of duchesses and countesses to-day.—M. A. P.

Pet Snake Pines for Mate.
Veterans at the Soldiers' Home here have two pet pine snakes. One of the snakes disappeared a week ago, but was so homesick for its mate that it came back and was found trying to get back into the reptile cage.—Vine-land Correspondence, Philadelphia Bulletin.

First Aid to Injured.
If a wound be deep, and excessive bleeding follow the injury, improvise a tourniquet by tying a strip of strong linen above the wound. Pass a pencil under this and give it a twist, pressing the bandage deeply into the flesh, and checking the flow of blood in the arteries and veins. This done, send for the doctor.

Wealth in Old Constantinople.
The wealth of Constantinople before the year 1000 was such as to move George Finley, its historian, to say that "the Pree Basilios had riches to rival the wealth of Croesus, and armed a household of 3,000 slaves to place the imperial crown upon Nicephorus II."

Racehorse Is Fastest Creature.
There are good authorities on animals who claim that the racehorse is the fastest creature that moves on four legs or two. They adduce evidence tending to show that the best thoroughbreds can beat any deer or antelope, any wolf, hare, fox, dog, or running bird.

Germans Buy Meat in France.
In Alsace and the German part of Lorraine many families send their children over the French frontier to buy meat. They can get it for three or four cents a pound less than they are charged in Germany, and there is no duty on small quantities.

Honesty Before Everything.
"Be honest, work hard, and save," said John D. Rockefeller to his Cleveland Sunday-school class. "Honesty is the basis of all character, and there can be no real success without it."

Good in Duty Well Done.
All the evils which come in the accomplishment of a duty vanish little by little with the consciousness of having done what was to be done.—Duchess d'Abantes.

Strict Stage Censorship.
In Bavaria there is a law which prohibits "kisses, passionate embraces, pressing her to his breast," and suchlike amorous actions on the stage.

Uncle Allen.
"Many a worthy young man," said Uncle Allen Sparks, "thinks he has a call to preach, when all he needs is a dose of physic."

Helping Out Others.
Atlas shifted wearily to the other foot. "If I can only continue to hold up the world until a few trust magnates are born," he said, "they will help a lot."

Stumbling Block of Artist.
The simplicity of the artist is always the stumbling block of the artist with the world.—Ouida (Louise de la Ramée).

Democracy of the Bath.
The democracy of the bath is a good institution. One of the most civilizing influences in the world must be the line drawn between the men who do and those who do not keep clean. Education, money, pedigree, all have been rejected in the quest for the true principle of social segregation. But who can find a valid objection to the barrier made by a porcelain-lined moat of good clean water?—N. Y. Globe.

For the Bath Tubs.
There is no more danger of slipping in the bathtub if one supplies the new corrugated rubber mat that lies in the bottom. This is almost essential for the comfort of old people, and a precaution worthy of use by the obese. Besides the mat there are pieces of rubber fastened by clips to the sides of the tub, to prevent slipping here. Handles are sometimes substituted for this arrangement.

Growth of St. Lawrence Valley.
The St. Lawrence valley has passed the Hudson and Mississippi river valleys in growth. In 1860 the opening of the Victoria bridge to Montreal, over 9,000 feet long, at a cost of \$6,300,000, was also the beginning of the opulence of newspapers, the most efficient of which then sent for the first time special correspondents to report the prince of Wales, who arrived in Canada to open the bridge.

Personal and Otherwise.
Thackeray's Lord Steyne is said to have been a pen portrait of an ancestor of Lord Yarmouth, who married Harry Thaw's sister. The Lord Yarmouth whose picture was painted in Steyne married Miss Fagniana, who inherited from George Selwyn £30,000, £100,000 from another man, and still another immense sum from Fagniana.

Unique Bible.
The most costly book in the royal library at Stockholm is a Bible, and there is not another just like it in the world. In weight and size alone it is unique. It is said that 160 asses' skins were used for its parchment leaves. Each page falls but an inch short of a yard in length. The width of the leaves is 20 inches. The covers are solid planks four inches thick.

The Crocodile.
The moment that a young crocodile breaks its shell it is to all intents and purposes as active as it is at any time during its life. It will make straight for the water, even if it be out of sight and a good distance off, and it will pursue its prey with eagerness and agility during the first hour of its free existence.

Hint for Dramatic Critics.
It appears that some of the Tokyo dramatic critics have been for some time in the habit of performing in comedies and taking the most celebrated roles. The Japanese critics think, in fact, that before judging the play of the actors they should themselves experience the difficulties of dramatic art.

Given Due Warning.
On an ash tray which has reached England from Germany is the following: "Defilement of the room by ash of cigars is forbidden to the severest. Any one who, notwithstanding, makes guilty of such a one will be punished irrevocably by house arrest."

Girl Jockeys in Japan.
Women jockeys, or rather girl jockeys, have made their appearance in Japan. During the last Tokyo races three favorites were ridden by girls. One, the daughter of a riding master, came in first, while the other two, both geishas, were "placed."

Milk Displacing Alcohol.
In a speech at the Bishopsgate Institute Sir Victor Horsley gave some remarkable figures to show how the use of alcohol in hospitals is declining. In 1862 nearly \$40,000 was spent on alcohol in the London hospitals and \$15,000 in milk; in 1902 the situation was almost exactly reversed.

Wonderful Insects.
Insects are the strongest and swiftest of living things, in proportion to their size and weight. Their flying, running, jumping, carrying and killing powers are wonderful, when measured by their own dimensions.

Jewish Bride's Position.
In Jewish marriages the bride always stands at the right hand of the groom. With every other nation of the world her place in the ceremony is at the left.

Contentment.
Do not seek to have all things happen as you would choose them, but rather choose them to happen as they do, and so shall the current of your life flow free.—Epictetus.

An Opportunity.
Opportunities are very sensitive things; if you slight them on their first visit you seldom see them again.—John Ruskin.

The High Compact.
The highest compact we can make with our fellow is: Let there be truth between us two forevermore.—Ralph Waldo Emerson.

Great Truth in Few Words.
He that runs out by extravagance must retrieve by parsimony.—From the Dutch.

And Always in Order.
Good counsel ever comes too late.—From the German.

Where Nutrition Is Lost.
If meat is put into cold water first, for boiling, there will be a constant oozing of albumen from it. There will be found more albumen in the soup that arises than in the meat itself. Mutton, cornbeef, or fish, if first put into scalding water will have the pores at once plugged by the surface albumen, and thus all that is vitally precious will be retained. By putting salt in the water, quick coagulation is especially aided. The nutritive quality of fish and its flavor is best obtained by roasting or baking.—Farming.

This Is Worth Knowing.
It may be useful to know that in case of sudden need, such as often arises in warm weather, a simple form of starching is the use of borax water. A quarter of a teaspoonful of borax in half a teacupful of cold water will give a dressing like new to embroidered cuffs and collars or stocks, even those made of linen. The article should be dipped in the borax water, wrung out and rolled out in a dry cloth for a few moments before ironing.

Songs and Sentiment.
It is a singular fact that in proportion to the wealth of melody of a nation so does its emotional side develop. Remarkable instances of this are to be found in the United Kingdom. In Scotland, Ireland and Wales—the countries rich in national songs—the emotional nature is strong; in England, where the melodies, if sweet, at any rate are not so touching and appealing, sentiment is slight.

Climate and Stature.
Some of the strongest and most active races of men live in the coldest inhabited regions. Alaskan Indians are often fine fellows in physique. On the other hand, there are splendid savages in Zululand and other tropical regions. Mountaineers and fishermen of the flattest coasts are not noticeably unequal in bodily development and prowess.

"Settling Up."
Many words of most august sound prove to be of quite commonplace ancestry when traced to their origins. "Finance" is really only settling up. Literally, it is just "ending," and was formerly used in that very simple sense in the English language. Then it came to signify settling up with a creditor, and acquired the special sense of ransom.

Difficult to Absorb.
From Omaha comes the story of a cow swallowing a \$100 diamond. In Cincinnati they found that a catfish had swallowed a gold bracelet, and now a Pittsburgh bulldog has swallowed \$19.73 in money. These stories are getting hard to swallow.

Reform in Tennessee.
We have been elected recorder of this here town, and as soon as we air sober we air going to interduce the darndest era of reform ever seen in this country. We are going to suppress all the blind tigers and confisgate all their booze.—Harde-man Free Press.

Divinity.
There is divinity within us which is cramped, dwarfed and unable to express itself. Give it freedom; let it act and speak; crown it with authority and you will behold a miracle. Thrust aside the man by thinking of yourself as the child of God with a destiny that stretches into the invisible eternity.—Exchange.

A Profitable Divorce.
France now consumes more than seven times as much absinthe as it did in 1901. A separation from absinthe might have been better, after all, for the French than the separation of church and state.—Louisville Herald.

A Slander.
The statement that the Missouri mule cannot stand the Philippines climate is a vile slander, of course. The Missouri mule can stand anything, and if necessary kick it into smithereens.—Kansas City Journal.

From Vladivostok for Europe.
Once every week a perfectly equipped express train leaves Vladivostok for Europe. The journey to Berlin may be comfortably made in less than 14 days and to Paris or London in 15 days.

Hawaiian Kapa Cloth.
The kapa cloth of the Hawaiian Islands is made from the bark of the paper mulberry tree. Bark cloth is also made to some extent in the Philippines.

Smallest Vertebrates.
The smallest thing with a backbone is the snarapan, a little fish recently discovered by scientists in the Philippine Islands. It measures about half an inch in length.

Of Absorbing Interest.
"Aside from the principle involved and in addition thereto," remarked the great financier, "the banking business is one of absorbing interest."

Language and Constitution.
A change of language invariably betokens a change in the social constitution of a country.—Mme. de Staël.

Best Legacy to Leave.
A man cannot leave a better legacy to the world than a well-educated family.—Thomas Scott.

Uninhabited Islands.
In the Indian ocean only 370 out of 16,300 islands are inhabited.

Grasshopper in a Glacier.
One of the small glaciers in Montana is of especial interest on account of the fact that in the mass of ice there are imbedded two strata of grasshoppers, each about a foot thick. There are literally tons of grasshoppers in the ice and the question naturally arises as to where they came from. The most obvious explanation is that centuries ago two enormous swarms in course of migration were caught in a snowstorm, chilled and buried in the snow, where they have remained till now in a perfect state of preservation.—Country Life in America.

Immense Russian Sturgeon.
The Russian sturgeon has been known to attain a length of 20 to 25 feet and a weight of 3,000 pounds. It is this species, once extremely abundant in the Danube, Volga and other large rivers which has furnished the salted roe called caviare. The sturgeon's bladder is used for isinglass. When sturgeon is eaten its flesh is found to be firmer than that of other fishes, well-flavored, though somewhat oily.

More Chewing Tobacco Used.
One of the largest retail tobacco dealers in the United States says that the consumption of chewing tobacco has increased almost 50 per cent. in five years. He attributes this increase to the automobile, because it is impossible to enjoy a cigar or pipe while whizzing along in a motor car. There is also danger of sparks or ashes from the lighted cigar or pipe getting into the eyes.

Housework a Means of Grace.
The French women have graceful figures even after the dreaded period of middle age, and this is due to the fact that they eat little and exercise much in their own homes. They take very little outdoor exercise, such as the English women delight in, but they are always busy about their homes, one reason being that they are economically inclined, and another that they have a horror of adipose tissue.

Bowles Was Disappointed.
Charles H. Bowles, a resident of Plymouth, N. H., and president of the savings bank, had invited a friend in to spend the evening for a little chat and a pipe. The friend arrived in due time and greeted his host with the remark: "Why, I forgot to shave!" Mr. Bowles looked much disappointed and said: "That is too bad, now we won't have a bit good time."

Cleaning Leather Bags.
To clean leather bags, peel and cut a banana, and with the cut portion rub the bag all over. Finally go over the bag with a clean sponge dipped in neat's-foot. Let this soak in for three or four hours before polishing with a chamols skin.

Greeks Fond of the Swallow.
The Greeks regarded the swallow with peculiar affection. There are a number of charming folk songs to welcome the swallow, which comes unheralded from space, in a night, and, after a brief stay, assembles its bands and vanishes.

In Few Words.
Miss Ellen Terry has written the following letter to the students at the Leeds Dramatic college: "I have been asked to say a word to you. If I say one word it will be 'Work.' If it were two words I should say 'Be patient,' and if it were three words, 'Don't be vain.'"

Adonis Gives Warning.
Adonis had just been introduced to Venus. "I don't want to butt in or anything like that," he said, warningly, "but I'm serving notice that if I ever catch you running around shopping in white shoes I'll cut you out."

Not the Limit of Trouble.
Job was taking his breakfast off the mantelpiece. These boils are pretty tough," he said, "and I'm having plenty of trouble, all right, but, anyway, Tom Johnson isn't born yet."

Ancient History.
"That guy Goliath may be able to withstand the stones from my sling," said David the night before the battle, "but there are other stones. I can hand him a piece of restaurant cherry pie, maybe."

Merlin's Lament.
Merlin kicked the black cat under the sofa and threw himself petulantly into a chair. "If I could just learn that three-cent fare trick," he growled, "I'd have any other conjurer in history beaten a city block."

Banana Flour Popular.
About 50 tons of banana flour is sold in the British Isles every year. It costs too much to be popular for food, but it is valued for the diet of children and invalids.

Looks for Disastrous Earthquakes.
Prof. Gregory, of the Yale geological department, says the San Francisco earthquake will be repeated with universal disastrous results.

Baseball Rapidly Propelled.
A baseball thrown by a professional player with a good arm goes at the rate of about 80 miles an hour.

Health Hint.
Don't abandon a meal, for this may result in a bad headache, but eat with regularity, and not too much.

For the Stove.
A teaspoonful of sugar to the stove blacking will add a material luster to the stove.

Condemns "Doping" of Workmen.
In his charge to a Warren county (Ala.) grand jury Judge Rush drew attention to the alleged "doping" with cocaine of roustabouts by steamboat mates. The judge stated that it had come to his ears that the mates carried a supply of the deadly drug, which they gave to the negroes in liberal doses. When stimulated by the drug the roustabout's capacity for work is greatly increased, but, by the time the trip is ended he is a physical and mental wreck.

Sturgeon Lives Long.
Young sturgeons grow very rapidly, although after the fish has attained maturity its growth is much slower, but continuing for many years. Frederick the Great attempted to introduce the sterlet, a kind of sturgeon, into Prussia about the year 1780. Some of these fish brought in at that time were found to be still alive in 1866, nearly 90 years later. The Russian sturgeons are believed to live to be 200 or 300 years old.

Horse Inferno.
"Paris is the inferno of horses" is a very old aphorism. French cabmen and carters have in general little love for the horse. Many consider this wretched quadruped as a simple tool, a motor with four feet, rather than as a precious servant worthy of regard and consideration. Not a day passes in the capital without one witnessing revolting brutality, often coupled with real stupidity.

Orchard Brings Big Price.
Wenatchee (Wash.) orchard land recently reached the \$1,500 mark, when a tract of 11½ acres was sold for \$17,375. The entire tract is in orchard, some of the trees being 19 years old. Notwithstanding the high price paid, it is believed that it will in three years net to the owner the price paid.

Wonders of the Age.
To keep the water ways to Asia open has saved all the cities of the eastern Mediterranean. But the movement from Greece and Italy, from the Black sea, even from Portugal, to the United States is as remarkable as the stability of the Turkish empire, which is as good as any of the Christian states near it, or it never would have stood so long.

Letter Writing a Lost Art?
To-day women sometimes take pains to be entertaining in their epistles, and men, as a rule, do not. The art of spelling even may come to be lost, as by the lady letter writer of conservative opinions who described a certain newspaper as a "wrotton wradical wrag."—Andrew Lang, in N. Y. Critic.

Year's Casualties.
The number of homicides and deaths by violence in the United States in 1905 was 9,212, as against 8,482 in 1904. Suicides, 9,082, as against 9,240 in 1904. Killed on steam railroads in 1905, 3,142; injured, 15,904. Killed on electric and elevated railroads, 464; injured, 2,622.

Golf Most Widely Played Game.
Golf is probably the most widely played outdoor game in the world, excepting simple sports of children such as "I spy" and leap frog. More men and boys play baseball and cricket, but not in so many places, so greatly separated.

Man's Superiority.
Only the apes can compare with men as all-around gymnasts, and it is doubtful whether any of them could compete successfully with human athletes in many sports, even if they had sufficient intelligence to know what to do and how to attempt it.

Where Men Are Supreme.
For great distances man is one of the strongest and fastest animals in existence. It is doubtful whether any four-footed beast noted for its endurance and fleetness could beat the best records of the six-day go-as-you-please contests.

Cash Down.
"Your honor," said a lawyer to the judge, "every man who knows me, knows that I am incapable of lending my aid to a mean cause." "That's so," said his opponent, "the gentleman never lends himself to a mean cause, he always gets cash down."

Never Woke Up to See.
While two friends were walking home the other day they were joined by one of the eccentric old characters of the town. "My friend," said one of the chumps, "how do you sleep now?" "I never wake up to see," replied Jim.

Scarce Article.
"Don't be looking for a wise man by candlelight," says a Georgia philosopher. "With all the bright sunshine heaven sends down, you may look till you're grayheaded without locating one!"

To Remove Stains on Marble.
Try a paste made of whiting, powdered soda and water to remove these unsightly stains. You might mix a little liquid ammonia with it if they are bad.

The Right and Left Hand.
The right hand, although more sensitive to the touch than the left, is less sensitive than the latter to the effect of heat or cold.

Prefer American Rifles.
British soldiers in India who win hunting permits by good conduct buy and use American rifles, when they can get them, as a rule.

Plague of Belgian Hares.
The prediction that the Belgian hare had would lead to the creation of a public pest has been realized in complaints that come from Bennington county, Vermont, where farmers are suffering from the depredations of rabbits and have no redress. The man who loses 1,000 head of cabbage, as in Dorset, has his opinion of people who feed their Belgian hares after it had been found unprofitable to rear them.

Revolutionary Relic.
James R. Putnam, while at work in his garden at Rutland, Vt., picked up a brass button about an inch in diameter. When it was cleaned it was found to be a military button in a good state of preservation. It is flat, with the word "Massachusetts artillery" around the edge of the face. In the center in relief is a cannon mounted on wheels and beside a flag on a staff. The button is a revolutionary relic.

Most Marvelous of Birds.
The swift flying swallow is ever on the wing. It has attained the perfection of speed, without friction and noiseless. Every motion is directed to its swooping flight for insects—now darting upward, to right, to left so rapidly that the eye cannot follow it—and its nervous organism must be wonderfully constructed to act upon a delicate and certain mechanism devised for swift flight.

Just Wanted to Have It Around.
Old Donald Mackintosh was ill. The minister was with him. He listened with patience to the latter's exhortations, but at length put a question: "Will there be whisky in heaven?" "Certainly not," the minister replied. "I am surprised that you should ask such a question." "Weel, sir, it's no that I care for 't myself, but it looks weel on the table!"

University Five Hundred Years Old.
On December 4, 1909, it will be 500 years since the University of Leipzig was organized by the secession of several thousand German students from the University of Prague. Arrangements are already being made to celebrate this semimillennium by the location of a massive work on the history of the city and the University of Leipzig.

Always Had Kick Coming.
This old lady was a hypochondriac. Her various diseases interested her, and she talked of nothing else. One day a visitor found her eating heartily and inquired as to her health. The invalid sighed and answered: "I feel very well, ma'am, but I always feel bad when I feel well, because I know I am going to feel worse afterward."

Old Universities.
Oxford and Cambridge hold an undisputed primacy among English universities. The most strenuous and enlightened modern effort can produce nothing to rival the dignified tradition of centuries of learning set amid quiet lawns, mediaeval buildings and beautiful music.—University Review.

Women and Their Fads.
A London physician has discovered that the wearing of heavy necklaces is responsible for physical infirmities. Necklaces, he says, cause a pressure on the important nerves that converge at the base of the skull. This is balm, indeed, to the woman who owns no jewels.

Learning Obedience.
The only way of learning to do a thing is to do it. The only way of learning obedience from Christ is to give up your will to him, and to make the doing of his will the one desire and delight of your heart.—Andrew Murray.

Surprise for the Fish.
Seven thousand five hundred gallons of adulterated wine were, by order of the police, poured into the River Neckar last week. The effect on the local fish, who were used to nothing stronger than water, was, we understand, deplorable.—Punch.

Jeweler Is Wily.
The newest scheme of a wily jeweler is to try to get his customers to buy jewels that match the color of their eyes. Of course, he is always sure to tell them that it enhances their beauty.

Large Pecan Bearing Orchard.
What is thought to be the largest bearing pecan orchard in the world is owned by Maj. John S. Horbeck, in Charleston county, S. C. He has 600 acres in bearing trees.

A Sure Sign.
You can always tell when a young man is in love: he becomes very anxious to make a great deal of money, in order that the object of his affection may have Everything She Wants.

The Larger Part of It, Anyhow.
Many a man has become possessed of the idea that he is a humorist merely because other people think he is funny.—Chicago Record-Herald.

Easy to Rebuild.
Mexican style of architecture is such that when an earthquake tumbles a man's house down he doesn't lose much.

Real and Imitation Love.
There are two kinds of love—the genuine that serves and the imitation that demands servitude.

And Pleased Patrons.
Advertising makes authors, and also makes real good, live merchants.

NUMBER 150

Getting Ready for Fall

We wish to announce to the trade that we are daily receiving all that is new in the coming season's styles in Dress Goods and the Dry Goods line generally. In fact we will be better prepared to attend to your wants in the line of Dry Goods, Clothing, Shoes, Etc. this season than ever before.

We Invite You to Our Store

We ask that you take a few minutes off while in town and look through our immense stock. You will be better prepared to trade then as you will have had a chance to inspect one of the largest Dry Goods stocks in the new state of Oklahoma

Remember the Big Cash Store will make your money go farther

SCOTT-HOARD CO.

UNITED STATES LANDS MARINES ON CUBAN SHORE

Havana, September 14.—One hundred and twenty sailors from the United States protected cruiser Denver camped Wednesday night in front of old La Fuerza Castle, facing the Plaza de Armas, the little park in front of the Presidential palace, which is the seat of the Cuban government. The American flag was planted just inside the low stone coping separating the castle grounds from O'Reilly street, which thoroughfare passes between the camp and the Plaza de Armas. The American soldiers were armed with regulation rifles, with the exception of a few who carried revolvers or carbines. Two field howitzers and two rapid-fire guns were sent ashore with the steamers and pointed across the pretty little park, a significant warning to any one approaching the executive headquarters of the Cuban government with hostile intent.

The Denver, which originally anchored further up the bar, dropped down this evening to a position abreast of the foot of O'Reilly street and in front of the offices of the Captain of the port, so as to be conveniently near the detachment sent ashore and close at hand in case of need.

The whole business was done so quietly and quickly that it caused the greatest surprise. The reason for the sudden landing of the American sailors

was a conference between President Palma, Charge d'Affaires Sleeper and Commander Colwell.

Tin-top and Mistletoe.

The marshal's office received the analysis of two beverages, Tin-top and Mistletoe. These beverages were sent to Prof. DeBarr of the Oklahoma University at Norman a few days ago. The analysis of these two beverages show Tin-top to contain 1.66 per cent of alcohol, and 3.847 per cent of malt. Mistletoe is shown to contain 1.962 per cent of alcohol and 6.84 per cent malt. Therefore, Marshal Porter says all dealers will be allowed to handle these beverages in the future as they are shown by government analysis to contain less than two per cent of alcohol. These are the only two beverages that have been analyzed by the government which have shown to contain less than two per cent as allowed by law.

The Rain Has Stopped

many people from buying new fall clothing, if it is you, bring your old suit or overcoat down to Nash and have it made new. New suits to measure from \$15 up. Ladies work a specialty. 143-23t wdt-22

COTTON WAREHOUSE WILL BE ERECTED AT ONCE

On Thursday the committee of the County Farmers' Union and the commercial club of Ada completed arrangements whereby a warehouse will be built. A deed to lots 2, 3 and 4, in block 59, situated just north of the compress, will be furnished the union and a building will at once be erected for the storage of cotton. In addition, the union will lease some adjacent lots and operate a cotton yard.

We are informed that the contract has been let for the erection of the building and that the work will be rushed to an early completion.

New Cure for Mosquitoes.

No one need suffer from mosquitoes. Just take a small piece of watermelon and set it near the bed. The insects will gather about it like flies around a sugar bowl and you will enjoy a good night's rest.

WANTED—City salesman of neat appearance to call on every merchant and professional man in Ada. Good proposition to offer the right party. Address, with reference, Manager, Box 71, Ada, I. T.

The carpet bagger must go when the people have an opportunity to express their wishes.

NEW MEXICO DEMOCRATS INDORSE JOINT STATEHOOD

Santa Fe, N. M., Sept. 14.—After being in session since early Wednesday morning until almost noon Thursday, the Democratic territorial convention nominated O. W. Larroza, of Los Vegas, as its candidate for delegate to congress. It is said the nomination was tendered to some half dozen prominent Democrats of this territory, who declined to accept.

Resolutions containing an indorsement of William Jennings Bryan for the presidency in 1908 were enthusiastically cheered. Joint statehood for New Mexico and Arizona was indorsed.

In Commissioner's Court.

The case of U. S. vs Bill Knox charged with larceny and forgery, was heard before Judge Winn Thursday. Knox was held in \$500 bonds on each charge, which was furnished.

BUSINESS MEN CO-OPERATE FOR BENEFIT OF ALL

Tuesday night there was organized at the U. S. court house a local association of the Retail Merchants Association of Oklahoma, by Joe S. Jennings, state organizer.

Some fifteen local merchants were present and the following officers were elected: Chas. Little, president, W. B. Jones Vice President, and R. S. T. in, secretary and treasurer.

A committee on membership was appointed, as was also a committee on by-laws and constitution.

The committee on membership began active work this morning and with the exception of three or four, every merchant in the city joined the association.

The object of the association is: To

more closely unite the merchants of the state, to co-operate for the benefit of all, to abate trade abuses; to expose fraud adulterations; to watch and influence legislation toward the better protection of capital; to assist its members in collecting delinquent accounts; protection from the men who will not pay their debts and to observe the Sabbath and all legal holidays.

Burglary at Roff.

Roff, I. T., Sept. 14.—Thieves entered the drug store of W. C. Rea here Wednesday night and carried off two six-shooters and a number of rings. The loss is estimated at about \$50. Entrance was gained by knocking out a glass in the back door.

INDIANS WANT MONEY FOR LAND GIVEN TO FREEDMEN

Tishomingo, I. T., Sept. 14.—The Chickasaw Legislature is in session considering matters of importance to the welfare of the tribe before the tribal Government dissolves. The Legislature will be in session about thirty days, and it is said that several memorials will be passed the nature of which cannot be learned.

Said Senator Young: "There are some matters to be settled that are of vast importance to my people. We are greatly displeased with the division of our lands among the new ones of the freedmen, and if Congress persists in taking our estates for that purpose we want our pay for the lands. The judgment rendered by the Court of Claims in our favor for the lands that have been allotted to the freedman has not been paid, and we would like to have our money. Members of the tribe need all the money that is coming to them to use in improving their allot-

ments. The question of public roads in this country is one of importance to the whites as well as to the Indians. We are as anxious as other people that good roads be built in our country, but we are bitterly opposed to having all the expenses saddled on the tribal government. The matter of placing roads on section lines is no easy matter. The Indians who must give up part of their lands for this purpose will want pay and the entire expense connected with the building of roads will be enormous, and we people take it as being rank injustice that this money be taken from our tribal funds."

The Indians had rather have their new born be given the surplus lands than to have these lands sold and the money be divided out per capita. The Governor did not touch upon these questions in his annual message, but he is thoroughly acquainted with their importance and is in accord with the Legislature in their settlement.

R. O. WHEELER, MANAGER

OVERDRAFTS

It is becoming well known by business men that overdrafts, whether large or small, are not approved by the comptroller of the currency. The large central banks allow overdrafts only in a very small way, and this, it matters not how small, is not approved by the powers that be. This unbusinesslike habit of overdrafts grew out of advancing on moving products, such as cotton, grain and fat stock on the move. The overdraft system is wrong and the man whose account is always overdrawn is the man who spends more money than he makes and will finally have no bank account.

Subject to the action of the Democratic district primary.

For Delegate to the Constitutional Convention

J. R. LAWRENCE
CARLTON WEAVER

MR. CARNEGIE, at the opening of the Roosevelt campaign in 1904, in a burst of partisan philanthropy, said he would give one million dollars to the Republican campaign fund to elect Mr. Roosevelt. Did his liberal donation have the effect of enervating the judicial arm of the government? It looks so, for there has been no attempt to prosecute the Steel Trust, and it must be remembered that Mr. Carnegie owns \$300,000,000 of the Steel Trust bonds. As Mr. Roosevelt has discovered that "the question of revising the tariff stands wholly apart from the question of dealing with the so-called trusts—that is, with the control of monopolies and with the perversion of great wealth in business, especially in corporate form" is it possible that President Roosevelt does not know or for partisan purposes denies that such "so-called trusts" as the Steel Trust, the Sugar Trust and most manufacturing combinations that are complete or partial monopolies, have been created and could not exist without tariff protection against foreign competition? The protective tariff is the mother of those trusts and is still nursing those lusty infants.

Architect Needed Nowaday.
Plumb—Heard about Squigg? He's a successful architect.

Dubb—Architect? Why, he doesn't know the difference between a Greek temple and a dog kennel.
"No, but he can put a six-room apartment where there is only space for a five-room flat."—Columbia Jester

Too Practical.
Miss Pense—How do you like this new beauty doctor?

Mrs. Quess—He's perfectly horrid! I asked him what I could do to develop my arms and he said I'd better go home and knead my own bread.—Detroit Free Press.

Thrown Out.
"And you say you lost your position by the great earthquake in San Francisco?" Inquired the kind lady.
"Yes, mum," replied Frayed Franklyn.

"What was your position?"
"I was asleep in a barn at the time."—Milwaukee Sentinel

BAD HEALTH.

Worry, Overwork, Hasty Eating, Excessive Use of Liquors, Loss of Sleep, Neglect of Nature's Calls. These Bring on the Deadly Bright's Disease.

Thousands Die of it Every Year.

Kidney disease is the enemy we have most to fear as a result of the feverish restlessness of modern civilization. It is a treacherous enemy, working out its deadly effect under cover of the most trifling symptoms. The first indication of changes in the urine, frequent headaches, digestive troubles, should be the signal for prompt remedial measures. Prickly Ash Bitters is a kidney remedy of the greatest merit; it is soothing, heating and strengthening, quickly relieves the aching or soreness that always appears in advanced stages, checks the progress of the disease and through its excellent cleansing and regulating effect in the stomach, liver and bowels, it brings back the strength and ruddy glow of vigorous health.

Accept no substitute. Insist on having Prickly Ash Bitters with the Large Figure 8 in red on the front label. Sold Everywhere. Price \$1.00 per bottle.

WHERE LAWYER CAME IN.

Worked Up a Shock for the Passenger and Got Damages for It.

Uncle Billy Smith had got back home after a trip to see his sister, and sitting on the post office steps, relates the Baltimore American, he said to the men who were asking questions:

"Well, in the car with me was a lawyer. I'd been talkin' with him and feelin' sorry that he hadn't taken to some honest profession, when the cars run off the track. Nobody was hurt, but our trunks in the baggage car was all smashed up. Pretty soon a man comes around, and ask us to make out the damages. I wrote down that I had lost two shirts, three pairs of socks, an old suit of clothes and a pair of shoes, and that my damages was ten dollars. The lawyer looks at the paper and said:

"But you hain't added anything for the shock."

"What shock?"

"The shock to your feelin's. Put down \$200 for that."

"But have my feelin's been shocked?"

"Of course they have, and you must get pay for it."

"I put her down as he said, and two days later I got my damages in hard cash. I've all along thought a lawyer was next door to a pirate, and that he'd do most any mean thing, but I've had to change my mind. That feller jest worked up a shock for me and got me \$200 extra, and if my son Sam wants to go into the law business I shan't do any great objectin'."

SHE REFUSED TO OBEY.

Denial of Woman Who Had the Old Marriage Service Revised.

Mrs. Sarah J. Harper Starr of Bellevue, was buried the other day in the family mausoleum at Zelienople, Penn., and a most wonderful life was ended, says the Pittsburg Dispatch.

Mrs. Starr's marriage in Cincinnati on May 22, 1849, is of historical importance in ecclesiastical circles. Miss Harper was 16 years old and had been studying in college with a view to missionary life in foreign lands. Dr. Starr, a young physician, was studying toward the same end and the couple decided to wed.

Miss Harper had ideas of her own in the question of the word "obey" in the ritual of the church, and decided that for her it should be eliminated. She found a friend in Rev. Maxwell Haddis, assistant pastor of Morris chapel, Cincinnati, who promised to omit the word during the ceremony, and she was married but friends were nonsensical enough to say the marriage was invalid and at the next meeting of the general conference of the Methodist Episcopal church, held in Cincinnati, the clergyman who had omitted the word was "churched."

Finally the question became general and later, when decisive action was taken, the sentence "serve and obey" was ordered stricken out of the ministerial ritual of the discipline of the Methodist church.

ENGLAND RAN LOTTERIES

Source of Public Revenue from Early Times Till the Year 1824.

Lotteries were common in ancient Rome, and during the middle ages lotteries were utilized by the Italian merchants for the disposal of their wares.

Some of the Italian states then adopted the lottery as a means of raising revenue, and the institution of state lotteries afterwards became very common and very popular throughout Europe.

The earliest English state lottery of which there is any record was in 1569, when 40,000 chances were sold at ten shillings each, the drawing taking place in the west door of St. Paul's cathedral. The prizes consisted of articles of plate, and the profits were employed for the repair of certain harbors.

Early in the reign of Queen Anne private lotteries were suppressed, "as public nuisances," but government lotteries were still maintained, and from 1709 to 1824 considerable sums were annually raised in lotteries authorized by act of parliament.

The average yearly profit to the government from 1793 to 1824 was over \$1,700,000. On the ground of injury to public morals, lotteries of all kinds were abolished in England in 1826.

To Save Table Cloths.

A friend with a large family used to be much disturbed over the frequency with which she had to renew her table linen, and especially the tablecloths. At last she hit this plan: When she buys her linen, she sees to it that it is wider than necessary, and also a few inches longer. Then when the edges show the slightest indication of wear, she immediately takes off a strip from one side, four or six inches wide, and a strip from the end. This of course throws the wear upon a different place, and her cloth lasts just as long again. Isn't it well worth trying?

MEN AND WOMEN.
Use Big 44 for unnatural discharges, inflammations, irritations or ulcerations of mucous membranes. It cures Gonorrhea, Syphilis, and all venereal diseases, and is not astringent or poisonous.
Sold by Druggists, or sent in plain wrapper, by mail, for 50¢ per bottle, or \$1.00 for 2 bottles. Circular sent on request.

RAPID FLIGHT OF TIME.

Male That Aged Five Years Between the Months of February and June.

Mr. Justice Brewer, of the United States supreme court, in lecturing to his law class at the George Washington university, says the American Spectator, told the following story:

"I knew of a case once where two darkies swapped mules. One of them was an old hand at the business, and in making the trade he represented his mule to be seven years old, and told of the many good traits the animal had not. This was in February. About two months later the other darky began to realize that he had been victimized in the bargain and that the beast was fully 12 years old. So he decided to go back and tell the swindler he had lied to him about the animal. However, owing to it being the busy season of farming, he was not able to go until about the middle of June. He finally did go, and told his man what he thought of his rascally misrepresentations about the mule. 'You say,' said the other fellow, 'dat when you got de mule in February he was seven years old, and now it's June and he's 12 years old?'"

"Yes, I do," was the angry response.

"Well, sah, time sure do fly."

JAMAICANS LACK GINGER.

Seek Employment at Panama, But Are Said to Be Wasteful and Stupid.

Jamaicans are apparently jacks of all trades. Hungry for the big wages of Panama, school teachers, barbers, shoemakers, store clerks have flocked to the isthmus to find employment as masons, carpenters, blacksmiths and painters indifferently, says Everybody's Magazine. They are wasteful; they are stupid; they are possessed with an unutterable hatred of exertion other than conversation, preferably on religious or ethical topics. Here are some more statistics from my friend the foreman of painters Hospital 54 is a building about 40 feet square, the amount of white lead required for the paint to be applied to it would be here in the states, about 75 pounds; it was necessary to use 250 pounds of white lead on the job, none of it was stolen; none was carried away; that white lead and all the other wasted materials which were mixed with it are chargeable to the Jamaica negro's inefficiency. Yet the canal must be built with Jamaican labor in the main. Some workmen are being brought from Galicia, in Spain; some have been imported from Martinique, a few very few, have come down from the United States.

Submerged Roman Cities.

Late explorations of the Italian coast near Pompeii have changed the opinion of antiquarians, says the New York Tribune. The submerged Roman ruins along the coast used to be regarded as foundation walls thrown out for sea baths, but it was made clear that they are the remains of noble mansions, and that they point to the time when the land on which they stood was far above the level of the sea. The shore is, in fact, strewn with the wreck of buried cities. Coast roads have vanished, ancient quarries have been flooded, and the breakwaters of the harbors of classical story covered fathoms deep with water. A great submarine sea wall, with concrete piers 17 feet high, still protects the fragments. But neither the fragments nor the great sea wall have been visible in the light of day for 2,000 years.

Bond Election.

[Notice of Special Election]

Notice is hereby given that a Special Election by the voters of the City of Ada, Indian Territory, who are qualified electors owning real or personal property subject to taxation in the said City of Ada, Indian Territory, has been called by the mayor and city council of Ada, Indian Territory, and will be held at the mayor's office in Ward No. 1, and at John Beard's building on Broadway in Ward No. 2, and at the United States commissioner's office in Ward No. 3, and at the John Barringer building on Townsend avenue between Main and Twelfth street in Ward No. 4, of the City of Ada, Indian Territory, on the 8th day of October, A. D. 1906, between the hours of 8 o'clock a. m. and sunset of same day, as follows:

To vote on the proposition of issuing Forty Thousand Dollars in bonds of said City of Ada, Indian Territory; the terms and conditions of the bond issue is more particularly described and set forth in the resolution of the city council of the City of Ada, Indian Territory, passed on the 3rd day of September, A. D. 1906, and herewith published at length as a part of this notice.

RESOLUTION. Concerning the issuing of bonds of the city of Ada, Indian Territory. Good cause appearing it is deemed advisable by the Mayor and City Council of the city of Ada, Indian Territory, to issue bonds for the following purpose, to-wit:

For the construction of additional waterworks; and, whereas under the provisions of Section 55 of Supplemental Agreement between the Choctaw and Chickasaw Nation and United States (32 Stat. 641); putting in force the "Laws in force in the organized Territories of the United States" (30 Stat. 252) and under the limitations of the General Bond Act approved May

19, 1902, (32 Stat. 200), the Mayor and City Council of said city are required first to submit the question of the issuance of said bonds to the qualified electors of said city who are owners of real estate or personal property, in said city, subject to taxation, to be by them voted upon.

Therefore, be it resolved by the City Council of the City of Ada, Indian Territory, that the Mayor of the said city of Ada, Indian Territory, submit the following proposition to the qualified electors owning real or personal property subject to taxation, in the said city of Ada, Indian Territory, to be by them voted upon, at an election to be held for that purpose, in Ada, Indian Territory, on the 8th day of October, A. D. 1906.

Shall the bonds of the city of Ada, Indian Territory, be issued for the following purpose and upon the following conditions, namely: in the sum of Forty Thousand Dollars, for the purpose of constructing additional waterworks for public and private use, in the said city of Ada, Indian Territory, said bonds hereinafter named to be issued in the principal sum of Forty Thousand Dollars and in denominations of One Thousand Dollars each, and to be numbered from thirty-one upwards, and to be known as Waterworks Bonds of the City of Ada, Indian Territory. The principal sum of said bonds to be paid in twenty years from the date of their issue in lawful money of the United States, to bear interest in like lawful money of the United States from the date of their issue, interest payable semi-annually at the rate of five per cent per annum, such bonds shall contain all necessary and usual provisions expressing the contract, shall be signed by the Mayor and countersigned by the Treasurer of the city of Ada, Indian Territory, who shall keep a proper record of such bonds, that none of said bonds shall be sold at less than their par value; that the 8th day of October, A. D. 1906, be and the same is, designated and set apart as the day upon which the question of the issuance of the bonds hereinafter specified shall be voted upon by the qualified electors of said city of Ada, Indian Territory, who are owners of real or personal property subject to taxation in said city of Ada, Indian Territory; that it is further resolved that a notice of the said election be signed by the Mayor and Recorder of the city of Ada, Indian Territory, in their official capacity specifying time and place of holding said election and set forth this resolution, said notice to be published in the Ada Weekly News, a newspaper of general circulation published in said city of Ada, Indian Territory, for thirty days prior to said 8th day of October, A. D. 1906.

And be it further Resolved: That the election be held on said 8th day of October, A. D. 1906, between the hours of eight o'clock a. m. and sunset of the same day, at such place in each ward as shall be designated by the notice of said election published by the said Mayor and Recorder of the said City of Ada, Indian Territory, and said election be conducted by election officers, consisting of judges and clerks appointed by one of the judges of the United States District court in the Southern district thereof.

And be it further Resolved: That the electors of said City of Ada, Indian Territory, owning either real or personal property subject to taxation in said City of Ada, Indian Territory, shall vote at said election by ballot, upon which shall be printed the following words: "Bond election for additional waterworks, Ada, Indian Territory." For issuing bonds of the City of Ada, Indian Territory, in the sum of Forty Thousand Dollars for the purpose of constructing additional waterworks in said city. (Yes) or (No). If in favor of bond issue scratch the word "No"; if opposed to the bond issue, scratch the word "Yes."

That the election shall be conducted in the usual manner prescribed by law and the votes shall be counted, canvassed and returned as provided by law; that it is further resolved that said city of Ada, Indian Territory, after incurring the indebtedness, by virtue of the issuance of said bonds shall by ordinance, which shall be irrevocable, provide for the collection of an annual tax sufficient to pay the interest on said bonds as the same shall fall due and also to provide a sufficient sinking fund to discharge the principal thereof within twenty years from date of said bonds.

Approved, J. P. WOOD, Mayor.

Attest, JESSE WARREN, Recorder.

Passed and approved the 3rd day of September, 1906.

I, Jesse Warren, the duly elected and acting Recorder of the city of Ada, Indian Territory, do hereby certify that the above and foregoing resolution was passed and adopted by the City Council of the city of Ada, Indian Territory, at their meeting on the 3rd day of September, A. D., 1906.

JESSE WARREN, Recorder.

In witness whereof, the said Mayor and Recorder of the City of Ada, Indian Territory, hereunto set our hands and official seals this, 5th day of September, A. D. 1906.

J. P. WOOD, Mayor.
JESSE WARREN, Recorder.

Sour Stomach
No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol relieves indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol for dyspepsia does not only relieve indigestion and dyspepsia, but this famous remedy helps all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.
Mr. S. S. Bell, of Ravenswood, W. Va., says: "I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."
Kodol Digests What You Eat.
Bottles only. Relieves indigestion, sour stomach, belching of gas, etc.

The News is in receipt of a copy of a special edition of the Maud Democrat. The write up of the town and surrounding country is well gotten up, but the appearance of the paper would have been improved had the half-tone cuts been scattered through the paper instead of being bunched on the last two pages. Taken as a whole, the issue will do much to advertise Maud and vicinity. 150-2t

Interest in Revival Grows.

The services at the Christian church continue to grow in interest. Mr. Trimble's subject for Thursday night was "What Will Ye Do With Christ?" "The situation is the same today," said Mr. Trimble, "as when Pilate asked this great question. Sin is represented by a robber, and is a great despoiler of happiness. It is not necessary to lift the capstone of hell to hear the wails of the damned. You can hear the clanking of chains and the gnashing of teeth in this life. Sin is the enemy of joy and destroys the very possibility of happiness. If, then, Barabas is displeasing to you, consider well the claims of Christ, for one or the other must reign in your heart."

"Will you reject Him as God's Son? Do you question miracles? We expect things to come in the ordinary way; it is miraculous if they come in any other way. My friends, the first tree did not come in the ordinary way. We have the miracle of matter, the miracle of life, the miracle of thought, the miracle of love. Everything in the material universe had its beginning in a miracle. If the doctrine of the empty tomb was believed in Jerusalem, and by the very people who cried with a demoniac voice, 'Let Him be crucified!' it should not be difficult for us."

"What will you do with His right to command? When Peter said, 'Let us build here three tabernacles, one for Moses, one for Elias and one for Christ,' God rebuked Peter, caught away Moses and Elias and said, 'This is my Son; hear ye Him.'"

"What will Jesus do with you?" will be the question uppermost in your mind in that great day. If He says, 'Come, ye blessed of my Father,' it will be well with you, but if He says, 'depart, I know you not,' you will turn to the darkest of despair."

"He knocks at the door of your heart tonight and calls, 'Open unto me.' Will you reject Him and knock in vain at the door of heaven, and call in vain, 'Open unto me?'"

Associational Meeting.

The Zion Baptist association convenes tomorrow morning at ten o'clock with the First Baptist church and will continue in session through Monday following. The introductory sermon will be preached at eleven o'clock tomorrow. Everybody is cordially invited to attend the sessions of the association.

Central Committee.

The central committee, representing each township in the Eighty-seventh delegate district, will meet in Ada tomorrow for the purpose of determining the time and method of holding the delegate Democratic primary.

Dropped In to Do Shopping.

Muskogee, I. T., Sept. 14.—A report reached here today to the effect that the Wycliffes, Charles, Tom and John, were recently in Tahlequah visiting with friends. It is said that they remained in that town for several days, and the fact that they were slightly known in that part of the country except by friends, made their visit a safe one. The main purpose of their visit, according to the report, was to lay in a supply of food and winter clothing. After the necessary purchases were made they mounted their horses and rode back to the hills, once more to assume the roll of hunted outlaws.

As Regards the Cotton Crop.

The following letter was received at this office today and will put right those who have been apprehensive of cotton conditions:
Luela, I. T., Sept. 11.—I have Examined Crops for the Past few weeks I was down to South M. C. Alester a few days ago And I Paid Strick Atechine to Cotton Crop I Did Not See Any Cotton that would make 1-2 Bails to the Acker I did Not See Eany thing But Bumble Bee. Cotton And Not much of that Boys you think Crops is Bad up here But Please don't go to M. C. Alester. A. B. Brown

Good for the cough, removes the cold, the cause of the cough. That's the work of Kennedy's Laxative Honey and Tar—the original laxative cough syrup. Contains no opiates. Sold by F. Z. Holley and Crescent Drug Store.

Pre-Nuptial Reception.

A number of young lady friends of Miss Anna Carroll, assisted by Mrs. W. S. Thompson, gave a pre-nuptial reception to Miss Carroll at the home of Mrs. Thompson Thursday night.

The handsome rooms were decorated with roses and honeysuckles and presented a beautiful appearance under the rays of the shaded lamps.

Upon the arrival of the lady guests they were assembled around a table and at each plate was a small fortune pie which held a picture of her future husband. Apples with burning candles were next provided, and a contest ensued to determine who would be the first to take unto herself a husband. Under the rules the candle that burned the longest period would designate the first to be married. This was the candle that sat before the plate of Miss Amanda James Haynes. The first one to burn itself out was that of Miss Taylor, who, according to the rules of the game, will remain a long time in single blessedness. While the candles were being consumed the guests were served with sherbert and cake.

At this time the hostess passed each guest a slip of paper, upon which each one was to write a recipe, which later will be compiled into a cook book and be presented to Miss Carroll.

During the evening each guest presented the bride to be with a fancy garter as an emblem of good luck. Miss Carroll was also the recipient of a handsome cut glass vase from the guests.

As a fitting close to the social event all gathered around Miss Carroll and sang "Good Night, Little Girl, Good Night."

The guests of Mrs. Thompson voted her an excellent hostess and vouch one of the most pleasant evenings in the history of Ada society.

A Narrow Escape.

Friday morning, while Crockett Daggs was driving in the low lands along Sandy, a large driftwood limb fell from a tree, striking him across the neck and back. He was rendered unconscious for a time, but rallied, and was brought to Ada, where he received attention.

During the high water considerable driftwood was carried through the bottoms, much of it lodging in trees, which, upon the slightest movement, fall to the ground, hence the accident.

While it is thought Mr. Daggs is not seriously injured, he is suffering considerably from the shock.

Portland Cement.

On the island of Portland, in the mouth of England, there are certain quarries of limestone, which have been worked for many years, in former times producing building stone. In 1824 an Englishman named Joseph Asplin, of Leeds, patented a process for mixing and burning lime and clay. The product looked so much like the Portland limestone that he called it "Portland cement," from which commonly known name given to nearly all kinds of hydraulic cement was derived.

What Made It Valuable.

An excited individual ran up to a porter at a railway station and asked: "Have you seen a parcel I left on this seat?" The porter replied that he had not. "Oh, what shall I do?" exclaimed the excited passenger. "It contains three poems I have written." "Can't you write them again?" asked the unsympathetic porter. "Yes, I can do that, but," hesitatingly, "there were two sandwiches in the parcel as well."—Christian World.

Cigarette Popular in the East.

Says a writer in the Pekin and Tientsin Times: "The cigarette has caught the popular favor in the east and far east, being a smoke seemingly peculiarly adaptable to Asiatics. The long-stemmed pipe is giving way everywhere to the cigarette. All classes of Chinese take to it, even rickasha coolies, some brands of the cigarette being so cheap that the beggars in Peking are seen often indulging in a quiet smoke."

Men Carry Great Weights.

No draft animal is asked to carry so great a load in proportion to its own weight and size, as some men saddle themselves with. Turkish porters in Constantinople often carry more than their own weight, and the Indians and Eskimo who acted as pack carriers in Alaska, when the gold field rushes made the demand for transportation imperative, used to do the same thing, at times.

Product of the Times.

The well bred man of pleasure is gradually dying out and giving place to the tearing, rushing, money grabbing, excitement hunting, slangy, mannerless, selfish devotee of horseflesh and chorus girls we meet so often in the drawing-rooms of duchesses and countesses to-day.—M. A. P.

Pet Snake Pines for Mate.

Veterans at the Soldiers' Home here have two pet pine snakes. One of the snakes disappeared a week ago, but was so homesome for its mate that it came back and was found trying to get back into the reptile cage.—Vine-land Correspondence, Philadelphia Bulletin.

First Aid to Injured.

If a wound be deep, and excessive bleeding follow the injury, improvise a tourniquet by tying a strip of strong linen above the wound. Pass a pencil under this and give it a twist, pressing the bandage deeply into the flesh, and checking the flow of blood in the arteries and veins. This done, send for the doctor.

Wealth in Old Constantinople.

The wealth of Constantinople before the year 1000 was such as to move George Finley, its historian, to say that "the Pres Basilios had riches to rival the wealth of Croesus, and armed a household of 3,000 slaves to place the imperial crown upon Nicephorus II."

Racehorse is Fastest Creature.

There are good authorities on animals who claim that the racehorse is the fastest creature that moves on four legs or two. They adduce evidence tending to show that the best thoroughbreds can beat any deer or antelope, any wolf, hare, fox, dog, or running bird.

Germans Buy Meat in France.

In Alsace and the German part of Lorraine many families send their children over the French frontier to buy meat. They can get it for three or four cents a pound less than they are charged in Germany, and there is no duty on small quantities.

Honesty Before Everything.

"Be honest, work hard, and save," said John D. Rockefeller to his Cleveland Sunday-school class. "Honesty is the basis of all character, and there can be no real success without it."

Good in Duty Well Done.

All the evils which come in the accomplishment of a duty vanish little by little with the consciousness of having done what was to be done.—Duchess d'Abrantes.

Strict Stage Censorship.

In Bavaria there is a law which prohibits "kisses, passionate embraces, pressing her to his breast," and suchlike amorous actions on the stage.

Uncle Allen.

"Many a worthy young man," said Uncle Allen Sparks, "thinks he has a call to preach, when all he needs is a dose of physic."

Helping Out Others.

Atlas shifted wearily to the other foot. "If I can only continue to hold up the world until a few trust magnates are born," he said, "they will help a lot."

Stumbling Block of Artist.

The simplicity of the artist is always the stumbling block of the artist with the world.—Ouida (Louise de la Ramée).

Democracy of the Bath.

The democracy of the bath is a good institution. One of the most civilizing influences in the world must be the line drawn between the men who do and those who do not keep clean. Education, money, pedigree, all have been rejected in the quest for the true principle of social segregation. But who can find a valid objection to the barrier made by a porcelain-lined moat of good clean water?—N. Y. Globe.

For the Bath Tubs.

There is no more danger of slipping in the bathtub if one supplies the new corrugated rubber mat that lies in the bottom. This is almost essential for the comfort of old people, and a precaution worthy of use by the obese. Besides the mat there are pieces of rubber fastened by clips to the sides of the tub, to prevent slipping here. Handles are sometimes substituted for this arrangement.

Growth of St. Lawrence Valley.

The St. Lawrence valley has passed the Hudson and Mississippi river valleys in growth. In 1860 the opening of the Victoria bridge to Montreal, over 9,000 feet long, at a cost of \$6,300,000, was also the beginning of the opulence of newspapers, the most efficient of which then sent for the first time special correspondents to report the prince of Wales, who arrived in Canada to open the bridge.

Personal and Otherwise.

Thackeray's Lord Steyne is said to have been a pen portrait of an ancestor of Lord Yarmouth, who married Harry Thaw's sister. The Lord Yarmouth whose picture was painted in Steyne married Miss Faganiana, who inherited from George Selwyn £30,000, £100,000 from another man, and still another immense sum from Faganiana.

Unique Bible.

The most costly book in the royal library at Stockholm is a Bible, and there is not another just like it in the world. In weight and size alone it is unique. It is said that 160 asses' skins were used for its parchment leaves. Each page falls but an inch short of a yard in length. The width of the leaves is 20 inches. The covers are solid planks four inches thick.

The Crocodile.

The moment that a young crocodile breaks its shell it is to all intents and purposes as active as it is at any time during its life. It will make straight for the water, even if it be out of sight and a good distance off, and it will pursue its prey with eagerness and agility during the first hour of its free existence.

Hint for Dramatic Critics.

It appears that some of the Tokyo dramatic critics have been for some time in the habit of performing in comedies and taking the most celebrated roles. The Japanese critics think, in fact, that before judging the play of the actors they should themselves experience the difficulties of dramatic art.

Given Due Warning.

On an ash tray which has reached England from Germany is the following: "Defilement of the room by ash of cigars is forbidden to the severest. Any one who, notwithstanding, makes guilty of such a one will be punished irrevocably by house arrest."

Girl Jockeys in Japan.

Women jockeys, or rather girl jockeys, have made their appearance in Japan. During the last Tokyo races three favorites were ridden by girls. One, the daughter of a riding master, came in first, while the other two, both geishas, were "placed."

Milk Displacing Alcohol.

In a speech at the Bishopsgate Institute Sir Victor Horsley gave some remarkable figures to show how the use of alcohol in hospitals is declining. In 1862 nearly \$40,000 was spent on alcohol in the London hospitals and \$15,000 in milk; in 1902 the situation was almost exactly reversed.

Wonderful Insects.

Insects are the strongest and swiftest of living things, in proportion to their size and weight. Their flying, running, jumping, carrying and killing powers are wonderful, when measured by their own dimensions.

Jewish Bride's Position.

In Jewish marriages the bride always stands at the right hand of the groom. With every other nation of the world her place in the ceremony is at the left.

Contentment.

Do not seek to have all things happen as you would choose them, but rather choose then to happen as they do, and so shall the current of your life flow free.—Epictetus.

An Opportunity.

Opportunities are very sensitive things; if you slight them on their first visit you seldom see them again.—John Ruskin.

The High Compact.

The highest compact we can make with our fellow is: Let there be truth between us two forevermore.—Ralph Waldo Emerson.

Great Truth in Few Words.

He that runs out by extravagance must retrieve by parsimony.—From the Dutch.

And Always in Order.

Good counsel ever comes too late.—From the German.

Where Happiness is Lost.

If meat is put into cold water first, for boiling, there will be a constant oozing of albumen from it. There will be found more albumen in the scum that arises than in the meat itself. Mutton, cornbeef, or fish, if first put into scalding water will have the pores at once plugged by the surface albumen, and thus all that is vitally precious will be retained. By putting salt in the water, quick coagulation is especially aided. The nutritive quality of fish and its flavor is best obtained by roasting or baking.—Farming.

This is Worth Knowing.

It may be useful to know that in case of sudden need, such as often arises in warm weather, a simple form of starching is the use of borax water. A quarter of a teaspoonful of borax in half a teacupful of cold water will give a dressing like new to embroidered cuffs and collars or stocks, even those made of linen. The article should be dipped in the borax water, wrung out and rolled out in a dry cloth for a few moments before ironing.

Songs and Sentiment.

It is a singular fact that in proportion to the wealth of melody of a nation so does its emotional side develop. Remarkable instances of this are to be found in the United Kingdom. In Scotland, Ireland and Wales—countries rich in national songs—the emotional nature is strong; in England, where the melodies, if sweet, at any rate are not so touching and appealing, sentiment is slight.

Climate and Stature.

Some of the strongest and most active races of men live in the coldest inhabited regions. Alaskan Indians are often fine fellows in physique. On the other hand, there are splendid savages in Zululand and other tropical regions. Mountaineers and fishermen of the flattest coasts are not noticeably unequal in bodily development and prowess.

"Settling Up."

Many words of most august sound prove to be of quite commonplace ancestry when traced to their origins. "Flounce" is really only settling up. Literally, it is just "ending," and was formerly used in that very simple sense in the English language. Then it came to signify settling up with a creditor, and acquired the special sense of ransom.

Difficult to Absorb.

From Omaha comes the story of a cow swallowing a \$100 diamond. In Cincinnati they found that a catfish had swallowed a gold bracelet, and now a Pittsburgh bulldog has swallowed \$19.73 in money. These stories are getting hard to swallow.

Reform in Tennessee.

We have been elected recorder of this here town, and as soon as we air sober we air going to interduce the darndest era of reform ever seen in this country. We are going to suppress all the blind tigers and confisgate all their booze.—Harde-man Free Press.

Divinity.

There is divinity within us which is cramped, dwarfed and unable to express itself. Give it freedom; let it act and speak; crown it with authority and you will behold a miracle. Thrust aside the man by thinking of yourself as the child of God with a destiny that stretches into the invisible eternity.—Exchange.

A Profitable Divorce.

France now consumes more than seven times as much absinthe as it did in 1901. A separation from absinthe might have been better, after all, for the French than the separation of church and state.—Louisville Herald.

A Slander.

The statement that the Missouri mule cannot stand the Philippine climate is a vile slander, of course. The Missouri mule can stand anything, and if necessary kick it into smithereens.—Kansas City Journal.

From Vladivostok for Europe.

Once every week a perfectly equipped express train leaves Vladivostok for Europe. The journey to Berlin may be comfortably made in less than 14 days and to Paris or London in 15 days.

Hawaiian Kapa Cloth.

The kapa cloth of the Hawaiian islands is made from the bark of the paper mulberry tree. Bark cloth is also made to some extent in the Philippines.

Smallest Vertebrates.

The smallest thing with a backbone is the sinarapan, a little fish recently discovered by scientists in the Philippine Islands. It measures about half an inch in length.

Of Absorbing Interest.

"Aside from the principle involved and in addition thereto," remarked the great financier, "the banking business is one of absorbing interest."

Language and Constitution.

A change of language invariably betokens a change in the social constitution of a country.—Mme. de Staël.

Best Legacy to Leave.

A man cannot leave a better legacy to the world than a well-educated family.—Thomas Scott.

Uninhabited Islands.

In the Indian ocean only 370 out of 16,900 islands are inhabited.

Grasshopper in a Glacier.

One of the small glaciers in Montana is of especial interest on account of the fact that in the mass of ice there are imbedded two strata of grasshoppers, each about a foot thick. There are literally tons of grasshoppers in the ice and the question naturally arises as to where they came from. The most obvious explanation is that centuries ago two enormous swarms in course of migration were caught in a snowstorm, chilled and buried in the snow, where they have remained till now in a perfect state of preservation.—Country Life in America.

Immense Russian Sturgeon.

The Russian sturgeon has been known to attain a length of 20 to 25 feet and a weight of 3,000 pounds. It is this species, once extremely abundant in the Danube, Volga and other large rivers which has furnished the salted roe called caviare. The sturgeon's bladder is used for isinglass. When sturgeon is eaten its flesh is found to be firmer than that of other fishes, well-flavored, though somewhat oily.

More Chewing Tobacco Used.

One of the largest retail tobacco dealers in the United States says that the consumption of chewing tobacco has increased almost 50 per cent. in five years. He attributes this increase to the automobile, because it is impossible to enjoy a cigar or pipe while whizzing along in a motor car. There is also danger of sparks or ashes from the lighted cigar or pipe getting into the eyes.

Housework a Means of Grace.

The French women have graceful figures even after the dreaded period of middle age, and this is due to the fact that they eat little and exercise much in their own homes. They take very little outdoor exercise, such as the English women delight in, but they are always busy about their homes, one reason being that they are economically inclined, and another that they have a horror of adipose tissue.

Bowles Was Disappointed.

Charles H. Bowles, a resident of Plymouth, N. H., and president of the savings bank, had invited a friend in to spend the evening for a little chat and a pipe. The friend arrived in due time and greeted his host with the remark: "Why, I forgot to shave." Mr. Bowles looked much disappointed and said: "That is too bad, now we won't have a bit good time."

Cleaning Leather Bags.

To clean leather bags, peel and cut a banana, and with the cut portion rub the bag all over. Finally go over the bag with a clean sponge dipped in neat's-foot. Let this soak in for three or four hours before polishing with a chamoliskin.

Greeks Fond of the Swallow.

The Greeks regarded the swallow with peculiar affection. There are a number of charming folk songs to welcome the swallow, which comes unheralded from space, in a night, and, after a brief stay, assembles its bands and vanishes.

In Few Words.

Miss Ellen Terry has written the following letter to the students at the Leeds Dramatic college: "I have been asked to say a word to you. If I say one word it will be 'Work.' If it were two words I should say 'Be patient,' and if it were three words, 'Don't be vain.'"

Adonis Gives Warning.

Adonis had just been introduced to Venus. "I don't want to butt in or anything like that," he said, warningly, "but I'm serving notice that if I ever catch you running around shopping in white shoes I'll cut you out."

Not the Limit of Trouble.

Job was taking his breakfast off the mantelpiece. These bolts are pretty tough," he said, "and I'm having plenty of trouble, all right, but, anyway, Tom Johnson isn't born yet."

Ancient History.

"That guy Goliath may be able to withstand the stones from my sling," said David the night before the battle, "but there are other stones. I can hand him a piece of restaurant cherry pie, maybe."

Merlin's Lament.

Merlin kicked the black cat under the sofa and threw himself petulantly into a chair. "If I could just learn that three-cent fare trick," he growled, "I'd have any other conjurer in history beaten a city block."

Banana Flour Popular.

About 50 tons of banana flour is sold in the British Isles every year. It costs too much to be popular for food, but it is valued for the diet of children and invalids.

Looks for Disastrous Earthquakes.

Prof. Gregory, of the Yale geological department, says the San Francisco earthquake will be repeated with universal disastrous results.

Baseball Rapidly Propelled.

A baseball thrown by a professional player with a good arm goes at the rate of about 80 miles an hour.

Health Hint.

Don't abandon a meal, for this may result in a bad headache, but eat with regularity, and not too much.

For the Stove.

A teaspoonful of sugar to the stove blacking will add a material luster to the stove.

Condemns "Doping" of Workmen.

In his charge to a Warren county (Ala.) grand jury Judge Rush drew attention to the alleged "doping" with cocaine of roustabouts by steamboat mates. The judge stated that it had come to his ears that the mates carried a supply of the deadly drug, which they gave to the negroes in liberal doses. When stimulated by the drug the roustabout's capacity for work is greatly increased, but, by the time the trip is ended he is a physical and mental wreck.

Sturgeon Lives Long.

Young sturgeons grow very rapidly, although after the fish has attained maturity its growth is much slower, but continuing for many years. Frederick the Great attempted to introduce the sterlet, a kind of sturgeon, into Prussia about the year 1780. Some of these fish brought in at that time were found to be still alive in 1866, nearly 90 years later. The Russian sturgeons are believed to live to be 200 or 300 years old.

Horse Inferno.

"Paris is the inferno of horses" is a very old aphorism. French cabmen and carters have in general little love for the horse. Many consider this wretched quadruped as a simple tool, a motor with four feet, rather than as a precious servant worthy of regard and consideration. Not a day passes in the capital without one witnessing revolting brutality, often coupled with real stupidity.

Orchard Brings Big Price.

Wenatchee (Wash.) orchard land recently reached the \$1,500 mark, when a tract of 11½ acres was sold for \$17,475. The entire tract is in orchard, some of the trees being 39 years old. Notwithstanding the high price paid, it is believed that it will in three years net to the owner the price paid.

Wonders of the Age.

To keep the water ways to Asia open has saved all the cities of the eastern Mediterranean. But the movement from Greece and Italy, from the Black sea, even from Portugal, to the United States is as remarkable as the stability of the Turkish empire, which is as good as any of the Christian states near it, or it never would have stood so long.

Letter Writing a Lost Art?

To-day women sometimes take pains to be entertaining in their epistles, and men, as a rule, do not. The art of spelling even may come to be lost, as by the lady letter writer of conservative opinions who described a certain newspaper as a "wrotton wradical wrag."—Andrew Lang, in N. Y. Critic.

Year's Casualties.

The number of homicides and deaths by violence in the United States in 1905 was 9,212, as against 8,482 in 1904. Suicides, 9,082, as against 9,240 in 1904. Killed on steam railroads in 1905, 3,143; injured, 15,904. Killed on electric and elevated railroads, 464; injured, 2,622.

Golf Most Widely Played Game.

Golf is probably the most widely played outdoor game in the world, excepting simple sports of children such as "I spy" and leap frog. More men and boys play baseball and cricket, but not in so many places, so greatly separated.

Man's Superiority.

Only the apes can compare with men as all-around gymnasts, and it is doubtful whether any of them could compete successfully with human athletes in many sports, even if they had sufficient intelligence to know what to do and how to attempt it.

Where Men Are Supreme.

For great distances man is one of the strongest and fastest animals in existence. It is doubtful whether any four-footed beast noted for its endurance and fleetness could beat the best records of the six-day go-as-you-please contests.

Cash Down.

"Your honor," said a lawyer to the judge, "every man who knows me, knows that I am incapable of lending my aid to a mean cause." "That's so," said his opponent, "the gentleman never lends himself to a mean cause, he always gets cash down."

Never Woke Up to See.

While two friends were walking home the other day they were joined by one of the eccentric old characters of the town. "My friend," said one of the chumps, "how do you sleep now?" "I never wake up to see," replied Jim.

Scarce Article.

"Don't be looking for a wise man by candlelight," says a Georgia philosopher. "With all the bright sunshine heaven sends down, you may look till you're grayheaded without locating one!"

To Remove Stains on Marble.

Try a paste made of whiting, powdered soda and water to remove these unsightly stains. You might mix a little liquid ammonia with it if they are bad.

The Right and Left Hand.

The right hand, although more sensitive to the touch than the left, is less sensitive than the latter to the effect of heat or cold.

Prefer American Rifles.

British soldiers in India who win hunting permits by good conduct buy and use American rifles, when they can get them, as a rule.

Plague of Belgian Hares.

The prediction that the Belgian hare fad would lead to the creation of a public pest has been realized in complaints that come from Bennington county, Vermont, where farmers are suffering from the depredations of rabbits and have no redress. The man who loses 1,000 head of cabbage, as in Dorset, has his opinion of people who breed their Belgian hares after it had been found unprofitable to rear them.

Revolutionary Relic.

James R. Putnam, while at work in his garden at Rutland, Vt., picked up a brass button about an inch in diameter. When it was cleaned it was found to be a military button in a good state of preservation. It is flat, with the word "Massachusetts artillery" around the edge of the face. In the center in relief is a cannon mounted on wheels and beside a flag on a staff. The button is a revolutionary relic.

Most Marvelous of Birds.

The swift flying swallow is ever on the wing. It has attained the perfection of speed, without friction and noiseless. Every motion is directed to its swooping flight for insects—now darting upward, to right, to left so rapidly that the eye cannot follow it—and its nervous organism must be wonderfully constructed to act upon a delicate and certain mechanism devised for swift flight.

Just Wanted to Have It Around.

Old Donald Mackintosh was ill. The minister was with him. He listened with patience to the latter's exhortations, but at length put a question: "Will there be whisky in heaven?" "Certainly not," the minister replied. "I am surprised that you should ask such a question." "Weel, sir, it's no that I care for 't myself, but it looks weel on the table!"

University Five Hundred Years Old.

On December 4, 1909, it will be 500 years since the University of Leipzig was organized by the secession of several thousand German students from the University of Prague. Arrangements are already being made to celebrate this semimillennium by the erection of a massive work on the history of the city and the University of Leipzig.

Always Had Kick Coming.

This old lady was a hypochondriac. Her various diseases interested her, and she talked of nothing else. One day a visitor found her eating heartily and inquired as to her health. The invalid sighed and answered: "I feel very well, ma'am, but I always feel bad when I feel well, because I know I am going to feel worse afterward."

Old Universities.

Oxford and Cambridge hold an undisputed primacy among English universities. The most strenuous and enlightened modern effort can produce nothing to rival the dignified tradition of centuries of learning set amid quiet lawns, mediaeval buildings and beautiful music.—University Review.

Women and Their Fads.

A London physician has discovered that the wearing of heavy necklaces is responsible for physical infirmities. Necklaces, he says, cause a pressure on the important nerves that converge at the base of the skull. This is balm, indeed, to the woman who owns no jewels.

Learning Obedience.

The only way of learning to do a thing is to do it. The only way of learning obedience from Christ is to give up your will to him, and to make the doing of his will the one desire and delight of your heart.—Andrew Murray.

Surprise for the Fish.

Seven thousand five hundred gallons of adulterated wine were, by order of the police, poured into the River Necker last week. The effect on the local fish, who were used to nothing stronger than water, was, we understand, deplorable.—Punch.

Jeweler Is Willy.

The newest scheme of a wily jeweler is to try to get his customers to buy jewels that match the color of their eyes. Of course, he is always sure to tell them that it enhances their beauty.

Large Pecan Bearing Orchard.
